The Advisors’ Inner Circle Fund III

Investment Adviser:
Knights of Columbus Asset Advisors LLC

Beginning on March 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of a Fund’s shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from a Fund electronically by contacting your financial intermediary.

You may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can follow the instructions included with this disclosure, if applicable, or you can contact your financial intermediary to inform it that you wish to continue receiving paper copies of your shareholder reports. If you invest directly with a Fund, you can inform a Fund that you wish to continue receiving paper copies of your shareholder reports by calling 1-844-KC-FUNDS (1-844-523-8637). Your election to receive reports in paper will apply to all funds held with your financial intermediary if you invest through a financial intermediary or all Catholic Investor Funds if you invest directly with a Fund.

The U.S. Securities and Exchange Commission has not approved or disapproved these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.
This prospectus has been arranged into different sections so that you can easily review this important information. For detailed information about each Fund, please see:

Catholic Investor Long/Short Equity Fund

Investment Objective

The Catholic Investor Long/Short Equity Fund (the “Long/Short Equity Fund” or the “Fund”) seeks long-term capital appreciation.

Fund Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment)

| Redemption Fee (as a percentage of amount redeemed, if shares redeemed have been held for less than 30 days) | 2.00% |

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

1 Dividend and Interest Expenses on Securities Sold Short and Other Operating Expenses are based on estimated amounts for the current fiscal year.

2 Knights of Columbus Asset Advisors LLC (“Knights of Columbus Asset Advisors” or the “Adviser”) has contractually agreed to waive fees and/or to reimburse expenses to the extent necessary to keep Total Annual Fund Operating Expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, Dividend and Interest Expenses on Securities Sold Short, non-routine expenses and any class-specific expenses (including Distribution and/or Service (12b-1) Fees and Shareholder Servicing Fees) (collectively, “excluded expenses”)) from exceeding 1.50% of the average daily net assets of each of the Fund’s share classes until February 28, 2021 (the “contractual expense limit”). In addition, the Adviser may receive from the Fund the difference between the Total Annual Fund Operating Expenses (not including excluded expenses) and the contractual expense limit to recoup all or a portion of its prior fee waivers or expense reimbursements made during the rolling three-year period preceding the recoupment if at any point Total Annual Fund Operating Expenses (not including excluded expenses) exceed the contractual expense limit.
Expenses (not including excluded expenses) are below the contractual expense limit (i) at the time of the fee waiver and/or expense reimbursement and (ii) at the time of the recoupment. This agreement may be terminated: (i) by the Board of Trustees (the “Board”) of The Advisors’ Inner Circle Fund III (the “Trust”), for any reason at any time; or (ii) by the Adviser, upon ninety (90) days’ prior written notice to the Trust, effective as of the close of business on February 28, 2021.

**Example**

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest $10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses (including capped expenses for the period described in the footnote to the fee table) remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<table>

</tbody>
</table>

**Portfolio Turnover**

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in total annual Fund operating expenses or in the example, affect the Fund’s performance. Because the Fund has not commenced investment operations as of the date of this prospectus, it does not have portfolio turnover information to report.

**Principal Investment Strategies**

Under normal circumstances, the Fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in long and short positions in equity securities. This investment policy can be changed by the Fund upon 60 days’ prior written notice to shareholders.

The equity securities in which the Fund invests are primarily common stocks of large-capitalization U.S. companies and derivatives with economic characteristics similar to such securities. The Fund considers a large-capitalization company to be a company with a market
capitalization above the 70th percentile of the market capitalization of companies listed on the New York Stock Exchange (“NYSE”) (approximately $7.6 billion as of August 31, 2019).

The Fund takes long and short positions in equity securities. A long position arises where the Fund holds a security in its portfolio or maintains a position through a derivative instrument that provides economic exposure similar to direct ownership of the security. Short positions generally involve selling a security not held within the portfolio in anticipation that the security’s price will decline or entering into a derivative instrument that provides economic exposure similar to a short sale of the security. To complete a short sale transaction, the Fund typically must borrow the stock to make delivery to the buyer. The Fund then would be obligated to replace the stock borrowed by purchasing the stock at the market price at the time of replacement. The price at such time may be higher or lower than the price at which the stock was sold short by the Fund. The Fund will be managed with a net long exposure bias, but has the ability to have net short exposure. The Fund may hold a substantial portion of its total assets in cash when it holds significant short positions.

In addition to investing in derivatives to take long and short positions, the Fund may also invest in derivatives for hedging or risk management purposes. The derivatives in which the Fund principally invests are futures, forwards, options and swaps.

The Fund makes investment decisions consistent with the United States Conference of Catholic Bishops’ Socially Responsible Investing Guidelines (the “USCCB Guidelines”), and therefore, the Fund is designed to avoid investments in companies that are believed to be involved with abortion, contraception, pornography, stem cell research/human cloning, weapons of mass destruction, or other enterprises that conflict with the USCCB Guidelines. The policies and practices of the companies selected for the Fund are monitored for various issues contemplated by the USCCB Guidelines. If L2 Asset Management, LLC (“L2 Asset Management” or the “Sub-Adviser”), the Fund’s sub-adviser, becomes aware that the Fund is invested in a company whose policies and practices are inconsistent with the USCCB Guidelines, the Sub-Adviser may sell the company’s securities or otherwise exclude future investments in such company.

In selecting investments to buy and sell for the Fund, the Sub-Adviser utilizes a hybrid quantitative and fundamental investment process to seek to identify atypically high-quality companies for their level of market valuation. Stocks are evaluated by the Sub-Adviser on many
variables that can be classified broadly into various categories, including “valuation” and “earnings quality.” “Valuation” contains traditional measures such as the dividend-to-price ratio and the earnings-to-price ratio, and “earnings quality” is used to assess the quality of earnings using measures such as accounting accruals and inventory turnover. Other variables focus on measures of analysts’ forecasts, balance sheet quality, market movements and return patterns including short and long-term price momentum. The Fund may focus its investments in one or more sectors.

Due to its investment strategy, the Fund may buy and sell securities frequently.

Principal Risks

As with all mutual funds, there is no guarantee that the Fund will achieve its investment objective. You could lose money by investing in the Fund. A Fund share is not a bank deposit and is not insured or guaranteed by the FDIC or any government agency. The principal risk factors affecting shareholders’ investments in the Fund are set forth below.

Equity Risk — Since it purchases equity securities, the Fund is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund’s equity securities may fluctuate drastically from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. These factors contribute to price volatility, which is the principal risk of investing in the Fund.

Short Sales Risk — A short sale involves the sale of a security that the Fund does not own in the expectation of purchasing the same security (or a security exchangeable therefore) at a later date at a lower price. Short sales expose the Fund to the risk that it will be required to buy the security sold short (also known as “covering” the short position) at a time when the security has appreciated in value, thus resulting in a loss to the Fund. Investment in short sales may also cause the Fund to incur expenses related to borrowing securities. Reinvesting proceeds received from short selling may create leverage which can amplify the effects of market volatility on the Fund and, therefore, the Fund’s share prices. Theoretically, uncovered short sales have the potential to expose the Fund to unlimited losses.
Large-Capitalization Company Risk — The large-capitalization companies in which the Fund invests may not respond as quickly as smaller companies to competitive challenges, and their growth rates may lag the growth rates of well-managed smaller companies during strong economic periods.

Derivatives Risk — The Fund’s use of futures contracts, forward contracts, options and swaps is subject to market risk, leverage risk, correlation risk, liquidity risk and hedging risk. Market risk is the risk that the market value of an investment may move up and down, sometimes rapidly and unpredictably. Leverage risk is the risk that since derivatives may be purchased for a fraction of their value, a relatively small price movement in a derivative may result in an immediate and substantial loss or gain for the Fund, and may also cause the Fund to liquidate portfolio positions when it would not be advantageous to do so in order to satisfy its obligations. Correlation risk is the risk that changes in the value of the derivative may not correlate perfectly or at all with the underlying asset, rate or index. Liquidity risk is the risk that certain securities may be difficult or impossible to sell at the time and the price that the Fund would like. Hedging risk is the risk that derivative instruments used for hedging purposes may also limit any potential gain that may result from the increase in value of the hedged asset. To the extent that the Fund engages in hedging strategies, there can be no assurance that such strategy will be effective or that there will be a hedge in place at any given time. The Fund’s use of forwards and swaps is also subject to credit risk and valuation risk. Credit risk is the risk that the counterparty to a derivative contract will default or otherwise become unable to honor a financial obligation. Valuation risk is the risk that a security may be difficult to value. Each of these risks could cause the Fund to lose more than the principal amount invested in a derivative instrument.

Sector Emphasis Risk — The securities of companies in the same business sector, if comprising a significant portion of the Fund’s portfolio, may in some circumstances react negatively to market conditions, interest rates and economic, regulatory or financial developments and adversely affect the value of the portfolio to a greater extent than if such securities comprised a lesser portion of the Fund’s portfolio or the Fund’s portfolio was diversified across a greater number of industry sectors.

Catholic Values Investing Risk — The Fund considers the USCCB Guidelines in its investment process and may choose not to purchase, or may sell, otherwise profitable investments in companies which have been identified as being in conflict with the USCCB Guidelines. This
means that the Fund may underperform other similar mutual funds that do not consider the USCCB Guidelines when making investment decisions.

**Investment Style Risk** — The Sub-Adviser’s value investment style may increase the risks of investing in the Fund. If the Sub-Adviser’s assessment of market conditions, or a company’s value or prospects for exceeding earnings expectations is inaccurate, the Fund could suffer losses or produce poor performance relative to other funds. In addition, “value stocks” can continue to be undervalued by the market for long periods of time.

**Portfolio Turnover Risk** — Due to its investment strategy, the Fund may buy and sell securities frequently. This may result in higher transaction costs and additional capital gains tax liabilities, which may affect the Fund’s performance.

**Large Purchase and Redemption Risk** — Large purchases or redemptions of the Fund’s shares may force the Fund to purchase or sell securities at times when it would not otherwise do so, and may cause the Fund’s portfolio turnover rate and transaction costs to rise, which may negatively affect the Fund’s performance and have adverse tax consequences for Fund shareholders.

**New Fund Risk** — Because the Fund is new, investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategy, may not employ a successful investment strategy, or may fail to attract sufficient assets under management to realize economies of scale, any of which could result in the Fund being liquidated at any time without shareholder approval and at a time that may not be favorable for all shareholders. Such liquidation could have negative tax consequences for shareholders and will cause shareholders to incur expenses of liquidation.

---

**Performance Information**

The Fund is new, and therefore has no performance history. Once the Fund has completed a full calendar year of operations, a bar chart and table will be included that will provide some indication of the risks of investing in the Fund by showing the variability of the Fund’s returns and comparing the Fund’s performance to a broad measure of market performance. Of course, the Fund’s past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future.
Current performance information is available on the Fund’s website at www.kofcassetadvisors.org or by calling toll-free to 1-844-KC-FUNDS (1-844-523-8637).

**Investment Advisers**

Knights of Columbus Asset Advisors LLC serves as investment adviser to the Fund. L2 Asset Management, LLC serves as investment sub-adviser to the Fund.

**Portfolio Managers**

Dr. Sanjeev Bhojraj, Co-Founder and Portfolio Manager at L2 Asset Management, has managed the Fund since its inception.

Mr. Matthew Malgari, Co-Founder, Managing Member and Portfolio Manager at L2 Asset Management, has managed the Fund since its inception.

For important information about the purchase and sale of Fund shares, taxes and financial intermediary compensation, please turn to “Summary Information about the Purchase and Sale of Fund Shares, Taxes and Financial Intermediary Compensation” on page 21 of the prospectus.
Catholic Investor U.S. All Cap Index Fund

Investment Objective

The Catholic Investor U.S. All Cap Index Fund (the “U.S. All Cap Index Fund” or the “Fund”) seeks investment results that, before fees and expenses, correspond generally to the performance of an index that measures the investment return of the broad U.S. stock market, excluding companies whose policies and practices are inconsistent with the United States Conference of Catholic Bishops’ Socially Responsible Investing Guidelines (the “USCCB Guidelines”).

Fund Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment)

</tr>
</tbody>
</table>

**Portfolio Turnover**

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in total annual Fund operating expenses or in the example, affect the Fund’s performance. Because the Fund has not commenced investment operations as of the date of this prospectus, it does not have portfolio turnover information to report.

**Principal Investment Strategies**

Under normal circumstances, the Fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in securities included in the Knights of Columbus U.S. All Cap Index (the “Index”) and other instruments with economic characteristics similar to such securities. This investment policy can be changed by the Fund upon 60 days’ prior written notice to shareholders.
The Index consists of all common stocks and real estate investment trusts (“REITs”) in the Solactive US Broad Market Index (the “Parent Index”), excluding companies that are determined by Institutional Shareholder Services (“ISS”) to be involved with abortion, contraception, pornography, stem cell research/human cloning, weapons of mass destruction, or other enterprises that conflict with the USCCB Guidelines. The Parent Index includes the 3,000 U.S. companies with the largest free-float market capitalizations. The Index is the exclusive property of the Adviser. The Index is calculated and administered by Solactive AG (“Solactive”). Neither ISS nor Solactive is affiliated with the Fund, the Adviser or L2 Asset Management, LLC (“L2 Asset Management” or the “Sub-Adviser”), the Fund’s sub-adviser. Solactive will deem a company to be a U.S. company if its securities are primarily listed in the United States, its country of risk is the United States, and it meets certain requirements with respect to its jurisdiction of incorporation and domicile. A company’s “country of risk” is determined based on a number of criteria, including its country of domicile, the primary stock exchange on which it trades, the location from which the majority of its revenue comes, and its reporting currency. The Index is reconstituted and rebalanced on a semi-annual basis in May and November to reflect changes in the constituents of the Parent Index. New securities from initial public offerings are also added to the Index on a semi-annual basis in February and August, subject to fulfillment of certain eligibility criteria. Any companies in the Index whose policies and practices are determined by ISS to be inconsistent with the USCCB Guidelines are removed from the Index on a monthly basis.

The Fund attempts to replicate the Index by investing all, or substantially all, of its assets in the companies that make up the Index, holding each company in approximately the same proportion as its weighting in the Index.

The Fund will concentrate its investments (i.e., hold 25% or more of its total assets) in a particular industry or group of industries to approximately the same extent that the Index is so concentrated.

Principal Risks

As with all mutual funds, there is no guarantee that the Fund will achieve its investment objective. You could lose money by investing in the Fund. A Fund share is not a bank deposit and is not insured or guaranteed by the FDIC or any government agency. The principal risk factors affecting shareholders’ investments in the Fund are set forth below.

Equity Risk — Since it purchases equity securities, the Fund is subject to the risk that stock prices will fall over short or extended periods of
time. Historically, the equity markets have moved in cycles, and the value of the Fund’s equity securities may fluctuate drastically from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. These factors contribute to price volatility, which is the principal risk of investing in the Fund.

**Small- and Mid-Capitalization Company Risk** — The small- and mid-capitalization companies in which the Fund invests may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, investments in these small- and mid-sized companies may pose additional risks, including liquidity risk, because these companies tend to have limited product lines, markets and financial resources, and may depend upon a relatively small management group. Therefore, small- and mid-capitalization stocks may be more volatile than those of larger companies. These securities may be traded over-the-counter or listed on an exchange.

**Large-Capitalization Company Risk** — The large-capitalization companies in which the Fund invests may not respond as quickly as smaller companies to competitive challenges, and their growth rates may lag the growth rates of well-managed smaller companies during strong economic periods.

**Real Estate Investment Trusts Risk** — REITs are pooled investment vehicles that own, and usually operate, income-producing real estate. REITs are susceptible to the risks associated with direct ownership of real estate, such as the following: declines in property values; increases in property taxes, operating expenses, interest rates or competition; overbuilding; zoning changes; and losses from casualty or condemnation. REITs typically incur fees that are separate from those of the Fund. Accordingly, the Fund’s investments in REITs will result in the layering of expenses such that shareholders will indirectly bear a proportionate share of the REITs’ operating expenses, in addition to paying Fund expenses. REIT operating expenses are not reflected in the fee table and example in this prospectus.

**Indexing Strategy/Index Tracking Risk** — The Fund is managed with an indexing investment strategy, attempting to track the performance of an unmanaged index of securities, regardless of the current or projected performance of the Index or of the actual securities comprising the Index. This differs from an actively-managed fund, which typically seeks to outperform a benchmark index. As a result, the Fund’s performance may be less favorable than that of a portfolio
managed using an active investment strategy. The structure and composition of the Index will affect the performance, volatility, and risk of the Index and, consequently, the performance, volatility, and risk of the Fund. While the Sub-Adviser seeks to track the performance of the Index (i.e., achieve a high degree of correlation with the Index), the Fund’s return may not match the return of the Index. The Fund incurs a number of operating expenses not applicable to the Index, and incurs costs in buying and selling securities. In addition, the Fund may not be fully invested at times, generally as a result of cash flows into or out of the Fund or reserves of cash held by the Fund to meet redemptions.

**Catholic Values Investing Risk** — The Fund considers the USCCB Guidelines in its investment process and may choose not to purchase, or may sell, otherwise profitable investments in companies which have been identified as being in conflict with the USCCB Guidelines. This means that the Fund may underperform other similar mutual funds that do not consider the USCCB Guidelines when making investment decisions.

**Industry Concentration Risk** — The Fund will concentrate its investments (i.e., hold 25% or more of its total assets) in a particular industry or group of industries to approximately the same extent that the Index is so concentrated. Concentrating Fund investments in companies conducting business in the same industry will subject the Fund to a greater risk of loss as a result of adverse economic, business or other developments affecting that industry than if its investments were not so concentrated.

**Large Purchase and Redemption Risk** — Large purchases or redemptions of the Fund’s shares may force the Fund to purchase or sell securities at times when it would not otherwise do so, and may cause the Fund’s portfolio turnover rate and transaction costs to rise, which may negatively affect the Fund’s performance and have adverse tax consequences for Fund shareholders.

**New Fund Risk** — Because the Fund is new, investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategy, may not employ a successful investment strategy, or may fail to attract sufficient assets under management to realize economies of scale, any of which could result in the Fund being liquidated at any time without shareholder approval and at a time that may not be favorable for all shareholders. Such liquidation could have negative tax consequences for shareholders and will cause shareholders to incur expenses of liquidation.
Performance Information

The Fund is new, and therefore has no performance history. Once the Fund has completed a full calendar year of operations, a bar chart and table will be included that will provide some indication of the risks of investing in the Fund by showing the variability of the Fund’s returns and comparing the Fund’s performance to a broad measure of market performance. Of course, the Fund’s past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future.

Current performance information is available on the Fund’s website at www.kofcassetadvisors.org or by calling toll-free to 1-844-KC-FUNDS (1-844-523-8637).

Investment Advisers

Knights of Columbus Asset Advisors LLC serves as investment adviser to the Fund. L2 Asset Management, LLC serves as investment sub-adviser to the Fund.

Portfolio Managers

Dr. Sanjeev Bhojraj, Co-Founder and Portfolio Manager at L2 Asset Management, has managed the Fund since its inception.

Mr. Matthew Malgari, Co-Founder, Managing Member and Portfolio Manager at L2 Asset Management, has managed the Fund since its inception.

For important information about the purchase and sale of Fund shares, taxes and financial intermediary compensation, please turn to “Summary Information about the Purchase and Sale of Fund Shares, Taxes and Financial Intermediary Compensation” on page 21 of the prospectus.
Investment Objective

The Catholic Investor Global Real Estate Fund (the “Global Real Estate Fund” or the “Fund”) seeks total return through a combination of current income and capital appreciation.

Fund Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment)

<table>
<thead>
<tr>
<th>Redemption Fee (as a percentage of amount redeemed, if shares redeemed have been held for less than 30 days)</th>
</tr>
</thead>
<tbody>

</table>

¹ Other Operating Expenses are based on estimated amounts for the current fiscal year.

² Knights of Columbus Asset Advisors LLC (“Knights of Columbus Asset Advisors” or the “Adviser”) has contractually agreed to waive fees and/or to reimburse expenses to the extent necessary to keep Total Annual Fund Operating Expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, non-routine expenses and any class-specific expenses (including Distribution and/or Service (12b-1) Fees and Shareholder Servicing Fees) (collectively, “excluded expenses”)) from exceeding 1.00% of the average daily net assets of each of the Fund’s share classes until February 28, 2021 (the “contractual expense limit”). In addition, the Adviser may receive from the Fund the difference between the Total Annual Fund Operating Expenses (not including excluded expenses) and the contractual expense limit to recoup all or a portion of its prior fee waivers or expense reimbursements made during the rolling three-year period preceding the recoupment if at any point Total Annual Fund Operating Expenses (not including excluded expenses) are below the contractual expense limit (i) at the time of the fee waiver and/or expense reimbursement and (ii) at the time of...
the recoupment. This agreement may be terminated: (i) by the Board of Trustees (the “Board”) of The Advisors’ Inner Circle Fund III (the “Trust”), for any reason at any time; or (ii) by the Adviser, upon ninety (90) days’ prior written notice to the Trust, effective as of the close of business on February 28, 2021.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest $10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses (including capped expenses for the period described in the footnote to the fee table) remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<table>
<thead>
<tr>
<th></th>
<th>1 Year</th>
<th>3 Years</th>

<td>Class S Shares</td>
<td>$122</td>
<td>$439</td>
</tr>
<tr>
<td>Investor Shares</td>
<td>$148</td>
<td>$516</td>
</tr>
</tbody>
</table>

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in total annual Fund operating expenses or in the example, affect the Fund’s performance. Because the Fund has not commenced investment operations as of the date of this prospectus, it does not have portfolio turnover information to report.

Principal Investment Strategies

Under normal circumstances, the Fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in real estate securities. This investment policy can be changed by the Fund upon 60 days’ prior written notice to shareholders.

For purposes of the Fund’s 80% investment policy, real estate securities include real estate investment trusts (“REITs”), common stocks and depositary receipts (including American Depositary Receipts (“ADRs”), European Depositary Receipts (“EDRs”) and Global Depositary Receipts (“GDRs”)) of real estate companies, and derivatives and
other instruments that have economic characteristics similar to such securities. REITs are pooled investment vehicles that own, and usually operate, income-producing real estate, or finance real estate. The Fund considers a company to be a real estate company if the company derives the majority of its earnings before interest, depreciation and amortization from the ownership, management and development of income-producing real estate, or the financing of real estate. The Fund may invest in securities of companies with any market capitalization.

Under normal circumstances, the Fund invests in at least three countries, which may include the United States, and invests at least 40% of its total assets in securities of non-U.S. companies. The Fund considers a company to be a non-U.S. company if: (i) at least 50% of the company’s assets are located outside of the U.S.; (ii) at least 50% of the company’s revenue is generated outside of the U.S.; (iii) the company is organized or maintains its principal place of business outside of the U.S.; or (iv) the company’s securities are traded principally outside of the U.S.

The Fund may seek to enhance current income by writing (selling) covered call options.

The Fund makes investment decisions consistent with the United States Conference of Catholic Bishops’ Socially Responsible Investing Guidelines (the “USCCB Guidelines”), and therefore, the Fund is designed to avoid investments in companies that are believed to be involved with abortion, contraception, pornography, stem cell research/human cloning, weapons of mass destruction, or other enterprises that conflict with the USCCB Guidelines. The policies and practices of the companies selected for the Fund are monitored for various issues contemplated by the USCCB Guidelines. If Ranger Global Real Estate Advisors, LLC ("Ranger" or the “Sub-Adviser”), the Fund’s sub-adviser, becomes aware that the Fund is invested in a company whose policies and practices are inconsistent with the USCCB Guidelines, the Sub-Adviser may sell the company’s securities or otherwise exclude future investments in such company.

In selecting investments to buy for the Fund, the Sub-Adviser combines a quantitative screening process with a qualitative stock selection process. The Sub-Adviser first screens companies based on quantitative metrics that the Sub-Adviser believes are highly correlated to long-term creation of shareholder value, including, but not limited to, insider ownership, management tenure, cash flow growth rate and balance sheet leverage. The Sub-Adviser then assesses the companies that meet the screening criterion based on certain qualitative factors,
including management quality, external growth potential, corporate governance, quality and location of assets, lease terms, tenant credit quality, debt structure and financial flexibility. The Sub-Adviser may sell an investment held by the Fund when there is a change in the factors supporting the investment or the Sub-Adviser identifies a more attractive investment opportunity.

Due to its investment strategy, the Fund may buy and sell securities frequently.

**Principal Risks**

As with all mutual funds, there is no guarantee that the Fund will achieve its investment objective. You could lose money by investing in the Fund. A Fund share is not a bank deposit and is not insured or guaranteed by the FDIC or any government agency. The principal risk factors affecting shareholders’ investments in the Fund are set forth below.

**Equity Risk** — Since it purchases equity securities, the Fund is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund’s equity securities may fluctuate drastically from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response.

**Sector Emphasis Risk** — The securities of companies in the same business sector, if comprising a significant portion of the Fund’s portfolio, may in some circumstances react negatively to market conditions, interest rates and economic, regulatory or financial developments and adversely affect the value of the portfolio to a greater extent than if such securities comprised a lesser portion of the Fund’s portfolio or the Fund’s portfolio was diversified across a greater number of industry sectors.

**Real Estate Sector Risk** — Securities of companies principally engaged in the real estate sector may be subject to the risks associated with the direct ownership of real estate. Risks commonly associated with the direct ownership of real estate include (i) changes in general economic and market conditions; (ii) changes in the value of real estate properties; (iii) risks related to local economic conditions, overbuilding and increased competition; (iv) increases in property taxes and operating expenses; (v) changes in zoning laws; (vi) casualty and condemnation losses; (vii)
variations in rental income, neighborhood values or the appeal of property to tenants; (viii) the availability of financing; and (ix) changes in interest rates and quality of credit extended.

**Real Estate Investment Trusts Risk** — REITs are pooled investment vehicles that own, and usually operate, income-producing real estate or finance real estate. REITs are susceptible to the risks associated with direct ownership of real estate, as discussed above. REITs typically incur fees that are separate from those of the Fund. Accordingly, the Fund’s investments in REITs will result in the layering of expenses such that shareholders will indirectly bear a proportionate share of the REITs’ operating expenses, in addition to paying Fund expenses. REIT operating expenses are not reflected in the fee table and example in this prospectus.

**Small- and Mid-Capitalization Company Risk** — The small- and mid-capitalization companies in which the Fund invests may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, investments in these small- and mid-sized companies may pose additional risks, including liquidity risk, because these companies tend to have limited product lines, markets and financial resources, and may depend upon a relatively small management group. Therefore, small- and mid-capitalization stocks may be more volatile than those of larger companies. These securities may be traded over-the-counter or listed on an exchange.

**Large-Capitalization Company Risk** — The large-capitalization companies in which the Fund invests may not respond as quickly as smaller companies to competitive challenges, and their growth rates may lag the growth rates of well-managed smaller companies during strong economic periods.

**Foreign Company Risk** — Investing in foreign companies, including direct investments and investments through depositary receipts, poses additional risks since political and economic events unique to a country or region will affect those markets and their issuers. These risks will not necessarily affect the U.S. economy or similar issuers located in the United States. Securities of foreign companies may not be registered with the U.S. Securities and Exchange Commission (the “SEC”) and foreign companies are generally not subject to the regulatory controls imposed on U.S. issuers and, as a consequence, there is generally less publically available information about foreign securities than is available about domestic securities. Income from foreign securities owned by the Fund may be reduced by a withholding tax at the source, which tax would reduce income received from the securities
comprising the Fund’s portfolio. Foreign securities may also be more difficult to value than securities of U.S. issuers. While depositary receipts provide an alternative to directly purchasing the underlying foreign securities in their respective national markets and currencies, investments in depositary receipts continue to be subject to many of the risks associated with investing directly in foreign securities.

Foreign Currency Risk — As a result of the Fund’s investments in securities denominated in, and/or receiving revenues in, foreign currencies, the Fund will be subject to currency risk. Currency risk is the risk that foreign currencies will decline in value relative to the U.S. dollar, in which case, the dollar value of an investment in the Fund would be adversely affected.

Covered Call Risk — Covered call risk is the risk that the issuer of the call option will forgo any profit from increases in the market value of the underlying security covering the call option above the sum of the premium and the strike price of the call but retain the risk of loss if the underlying security declines in value. The Fund will have no control over the exercise of the option by the option holder and may lose the benefit from any capital appreciation on the underlying security. A number of factors may influence the option holder’s decision to exercise the option, including the value of the underlying security, price volatility, dividend yield and interest rates. To the extent that these factors increase the value of the call option, the option holder is more likely to exercise the option, which may negatively affect the Fund.

Catholic Values Investing Risk — The Fund considers the USCCB Guidelines in its investment process and may choose not to purchase, or may sell, otherwise profitable investments in companies which have been identified as being in conflict with the USCCB Guidelines. This means that the Fund may underperform other similar mutual funds that do not consider the USCCB Guidelines when making investment decisions.

Portfolio Turnover Risk — Due to its investment strategy, the Fund may buy and sell securities frequently. This may result in higher transaction costs and additional capital gains tax liabilities, which may affect the Fund’s performance.

Large Purchase and Redemption Risk — Large purchases or redemptions of the Fund’s shares may force the Fund to purchase or sell securities at times when it would not otherwise do so, and may cause the Fund’s portfolio turnover rate and transaction costs to rise,
which may negatively affect the Fund’s performance and have adverse tax consequences for Fund shareholders.

**New Fund Risk** — Because the Fund is new, investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategy, may not employ a successful investment strategy, or may fail to attract sufficient assets under management to realize economies of scale, any of which could result in the Fund being liquidated at any time without shareholder approval and at a time that may not be favorable for all shareholders. Such liquidation could have negative tax consequences for shareholders and will cause shareholders to incur expenses of liquidation.

**Performance Information**

The Fund is new, and therefore has no performance history. Once the Fund has completed a full calendar year of operations, a bar chart and table will be included that will provide some indication of the risks of investing in the Fund by showing the variability of the Fund’s returns and comparing the Fund’s performance to a broad measure of market performance. Of course, the Fund’s past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future.

Current performance information is available on the Fund’s website at www.kofcassetadvisors.org or by calling toll-free to 1-844-KC-FUNDS (1-844-523-8637).

**Investment Advisers**

Knights of Columbus Asset Advisors LLC serves as investment adviser to the Fund. Ranger Global Real Estate Advisors, LLC serves as investment sub-adviser to the Fund.

**Portfolio Manager**

Andrew J. Duffy, CFA, Managing Partner, Chief Investment Officer and Senior Portfolio Manager at Ranger, has managed the Fund since its inception.

*For important information about the purchase and sale of Fund shares, taxes and financial intermediary compensation, please turn to “Summary Information about the Purchase and Sale of Fund Shares, Taxes and Financial Intermediary Compensation” on page 21 of the prospectus.*
SUMMARY INFORMATION ABOUT THE PURCHASE AND SALE OF FUND SHARES, TAXES AND FINANCIAL INTERMEDIARY COMPENSATION

Purchase and Sale of Fund Shares

You may generally purchase or redeem shares on any day that the New York Stock Exchange ("NYSE") is open for business.

To purchase I Shares of the Funds for the first time, you must invest, in the aggregate, at least $25,000 in one or more Catholic Investor Fund(s). If you hold I Shares of a Catholic Investor Fund, you may purchase I Shares of the same Fund, or purchase I Shares of any other Catholic Investor Fund, in amounts of at least $250.

To purchase Investor Shares of the Funds for the first time, you must invest, in the aggregate, at least $1,000 in one or more Catholic Investor Fund(s). If you hold Investor Shares of a Catholic Investor Fund, there is no minimum for purchases of Investor Shares of the same Fund, or purchases of Investor Shares of any other Catholic Investor Fund.

There is no minimum initial or subsequent investment amount for Class S Shares of the Funds.

The Funds may accept investments of smaller amounts in their sole discretion.

If you own your shares directly, you may redeem your shares by contacting the Funds directly by mail at Catholic Investor Funds, P.O. Box 219009, Kansas City, MO 64121-9009 (Express Mail Address: Catholic Investor Funds, c/o DST Systems, Inc. 430 West 7th Street, Kansas City, MO 64105) or telephone at 1-844-KC-FUNDS (1-844-523-8637).

If you own your shares through an account with a broker or other financial intermediary, contact that broker or financial intermediary to redeem your shares. Your broker or financial intermediary may charge a fee for its services in addition to the fees charged by the Funds.

Tax Information

Each Fund intends to make distributions that may be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or individual retirement account ("IRA"), in which case your distributions will be taxed when withdrawn from the tax-deferred account.
Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of a Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend a Fund over another investment. Ask your salesperson or visit your financial intermediary’s web site for more information.

MORE INFORMATION ABOUT THE FUNDS’ INVESTMENT OBJECTIVES AND STRATEGIES

The investment objective of the Long/Short Equity Fund is to seek long-term capital appreciation.

The investment objective of the U.S. All Cap Index Fund is to seek investment results that, before fees and expenses, correspond generally to the performance of an index that measures the investment return of the broad U.S. stock market, excluding companies whose policies and practices are inconsistent with the USCCB Guidelines.

The investment objective of the Global Real Estate Fund is to seek total return through a combination of current income and capital appreciation.

The investment objective of each Fund is not a fundamental policy and may be changed by the Board without shareholder approval.

The investments and strategies described in this prospectus are those that the Funds use under normal conditions. During unusual economic or market conditions, or for temporary defensive or liquidity purposes, each Fund may, but is not obligated to, invest up to 100% of its assets in money market instruments and other cash equivalents that would not ordinarily be consistent with its investment objective. If a Fund invests in this manner, it may cause the Fund to forgo greater investment returns for the safety of principal and the Fund may therefore not achieve its investment objective. A Fund will only do so if the Adviser or a Sub-Adviser (as defined below) believes that the risk of loss outweighs the opportunity for capital appreciation or current income.

This prospectus describes the Funds’ principal investment strategies, and the Funds will normally invest in the types of securities and other investments described in this prospectus. In addition to the securities and other investments and strategies described in this prospectus, each Fund also may invest to a lesser extent in other securities, use other
strategies and engage in other investment practices that are not part of its principal investment strategies. These investments and strategies, as well as those described in this prospectus, are described in detail in the Funds’ Statement of Additional Information (the “SAI”) (for information on how to obtain a copy of the SAI see the back cover of this prospectus). Of course, there is no guarantee that a Fund will achieve its investment goals.

MORE INFORMATION ABOUT RISK

Investing in each Fund involves risk and there is no guarantee that any Fund will achieve its goals. The Adviser’s and the Sub-Advisers’ judgments about the markets, the economy, or companies may not anticipate actual market movements, economic conditions or company performance, and these judgments may affect the return on your investment. In fact, no matter how good of a job the Adviser or a Sub-Adviser does, you could lose money on your investment in a Fund, just as you could with similar investments.

The value of your investment in a Fund is based on the value of the securities the Fund holds. These prices change daily due to economic and other events that affect particular companies and other issuers. These price movements, sometimes called volatility, may be greater or lesser depending on the types of securities a Fund owns and the markets in which they trade. The effect on a Fund of a change in the value of a single security will depend on how widely the Fund diversifies its holdings.

**Equity Risk (All Funds)** — Equity securities include common stocks, depositary receipts and shares of REITs. Common stock represents an equity or ownership interest in an issuer. Investments in equity securities in general are subject to market risks that may cause their prices to fluctuate over time, sometimes rapidly or unpredictability. Fluctuations in the value of equity securities in which a Fund invests will cause the Fund’s net asset value (“NAV”) to fluctuate. An investment in a portfolio of equity securities may be more suitable for long-term investors who can bear the risk of these share price fluctuations. Depositary receipts and REITs are discussed below.

**Foreign Markets Securities Risk (Global Real Estate Fund)** — Investments in securities of foreign companies (including direct investments as well as investments through depositary receipts) can be more volatile than investments in U.S. companies. Diplomatic, political, or economic developments, including nationalization or appropriation, could affect investments in foreign companies. Foreign
securities markets generally have less trading volume and less liquidity than U.S. markets. In addition, the value of securities denominated in foreign currencies, and of dividends from such securities, can change significantly when foreign currencies strengthen or weaken relative to the U.S. dollar. Financial statements of foreign issuers are governed by different accounting, auditing, and financial reporting standards than the financial statements of U.S. issuers and may be less transparent and uniform than in the United States. Thus, there may be less information publicly available about foreign issuers than about most U.S. issuers. Transaction costs are generally higher than those in the United States and expenses for custodial arrangements of foreign securities may be somewhat greater than typical expenses for custodial arrangements of similar U.S. securities. Some foreign governments levy withholding taxes against dividend and interest income. Although in some countries a portion of these taxes are recoverable, the non-recovered portion will reduce the income received from the securities comprising the Fund’s portfolio.

**Short Sales Risk (Long/Short Equity Fund)** — The Fund is subject to short sales risk. Short sales are transactions in which the Fund sells a security it does not own. The Fund must borrow the security to make delivery to the buyer. The Fund is then obligated to replace the security borrowed by purchasing the security at the market price at the time of replacement. The price at such time may be higher or lower than the price at which the security was sold by the Fund. If the underlying security goes down in price between the time the Fund sells the security and buys it back, the Fund will realize a gain on the transaction. Conversely, if the underlying security goes up in price during the period, the Fund will realize a loss on the transaction. Because the market price of the security sold short could increase without limit, the Fund could be subject to a theoretically unlimited loss. The risk of such price increases is the principal risk of engaging in short sales.

In addition, the Fund’s investment performance may suffer if the Fund is required to close out a short position earlier than it had intended. This would occur if the securities lender required the Fund to deliver the securities the Fund borrowed at the commencement of the short sale and the Fund was unable to borrow the securities from another securities lender or otherwise obtain the security by other means. Moreover, the Fund may be subject to expenses related to short sales that are not typically associated with investing in securities directly, such as costs of borrowing and margin account maintenance costs associated with the Fund’s open short positions. These expenses
negatively impact the performance of the Fund. For example, when the Fund short sells an equity security that pays a dividend, it is obligated to pay the dividend on the security it has sold. However, a dividend paid on a security sold short generally reduces the market value of the shorted security and thus, increases the Fund’s unrealized gain or reduces the Fund’s unrealized loss on its short sale transaction. To the extent that the dividend that the Fund is obligated to pay is greater than the return earned by the Fund on investments, the performance of the Fund will be negatively impacted. Furthermore, the Fund may be required to pay a premium or interest to the lender of the security. The foregoing types of short sale expenses are sometimes referred to as the “negative cost of carry,” and will tend to cause the Fund to lose money on a short sale even in instances where the price of the underlying security sold short does not change over the duration of the short sale. The Fund is also required to segregate other assets on its books to cover its obligation to return the security to the lender which means that those other assets may not be available to meet the Fund’s needs for immediate cash or other liquidity.

**Real Estate Sector Risk (Global Real Estate Fund)** — Securities of companies principally engaged in the real estate sector may be subject to the risks associated with the direct ownership of real estate. Risks commonly associated with the direct ownership of real estate include (i) changes in general economic and market conditions; (ii) changes in the value of real estate properties; (iii) risks related to local economic conditions, overbuilding and increased competition; (iv) increases in property taxes and operating expenses; (v) changes in zoning laws; (vi) casualty and condemnation losses; (vii) variations in rental income, neighborhood values or the appeal of property to tenants; (viii) the availability of financing; and (ix) changes in interest rates and quality of credit extended. In addition, the performance of the economy in each of the regions and countries in which the real estate owned by a company is located affects occupancy, market rental rates and expenses and, consequently, has an impact on the income from such properties and their underlying values. Some real estate companies have limited diversification because they invest in a limited number of properties, a narrow geographic area, or a single type of property. Moreover, certain real estate investments may be illiquid and, therefore, the ability of real estate companies to reposition their portfolios promptly in response to changes in economic or other conditions is limited.

**Real Estate Investment Trusts Risk (U.S. All Cap Index Fund and Global Real Estate Fund)** — Real estate investment trusts ("REITs") are pooled investment vehicles that own, and usually operate, income-
producing real estate. REITs are susceptible to the risks associated with direct ownership of real estate, as discussed above. REITs typically incur fees that are separate from those of the Fund. Accordingly, the Fund’s investments in REITs will result in the layering of expenses such that shareholders will indirectly bear a proportionate share of the REITs’ operating expenses, in addition to paying Fund expenses. REIT operating expenses are not reflected in the fee table and example in this prospectus.

Some REITs may have limited diversification and may be subject to risks inherent in financing a limited number of properties. REITs depend generally on their ability to generate cash flow to make distributions, and may be subject to defaults by borrowers and to self-liquidations. In addition, a REIT may be affected by its failure to qualify for tax-free pass-through of income under the Internal Revenue Code of 1986, as amended (the “Code”), or its failure to maintain exemption from registration under the Investment Company Act of 1940, as amended (the “1940 Act”).

Derivatives Risk (Long/Short Equity Fund and Global Real Estate Fund) — A Fund’s use of futures contracts, forward contracts, options and swaps is subject to derivatives risk. Derivatives are often more volatile than other investments and may magnify the Fund’s gains or losses. There are various factors that affect a Fund’s ability to achieve its objective with derivatives. Successful use of a derivative depends upon the degree to which prices of the underlying assets correlate with price movements in the derivatives the Fund buys or sells. The Fund could be negatively affected if the change in market value of its securities fails to correlate perfectly with the values of the derivatives it purchased or sold. The lack of a liquid secondary market for a derivative may prevent the Fund from closing its derivative positions and could adversely impact its ability to achieve its objective and to realize profits or limit losses. Since derivatives may be purchased for a fraction of their value, a relatively small price movement in a derivative may result in an immediate and substantial loss or gain to the Fund. Derivatives are often more volatile than other investments and the Fund may lose more in a derivative than it originally invested in it. Additionally, some derivative instruments are subject to counterparty risk, meaning that the party that issues the derivative may experience a significant credit event and may be unwilling or unable to make timely settlement payments or otherwise honor its obligations.

_Futures Contracts._ Futures contracts provide for the future sale by one party and purchase by another party of a specified amount of a specific security or asset at a specified future time and at a specified
price. Because futures require only a small initial investment in the form of a deposit or margin, they involve a high degree of leverage. Accordingly, the fluctuation of the value of futures in relation to the underlying assets upon which they are based is magnified. Thus, a Fund may experience losses that exceed losses experienced by funds that do not use futures contracts. There may be imperfect correlation, or even no correlation, between price movements of a futures contract and price movements of investments for which futures are used as a substitute, or which futures are intended to hedge.

Lack of correlation (or tracking) may be due to factors unrelated to the value of the investments being substituted or hedged, such as speculative or other pressures on the markets in which these instruments are traded. Consequently, the effectiveness of futures as a security substitute or as a hedging vehicle will depend, in part, on the degree of correlation between price movements in the futures and price movements in underlying securities or assets. While futures contracts are generally liquid instruments, under certain market conditions they may become illiquid. Futures exchanges may impose daily or intra-day price change limits and/or limit the volume of trading.

Additionally, government regulation may further reduce liquidity through similar trading restrictions. As a result, a Fund may be unable to close out its futures contracts at a time that is advantageous. The successful use of futures depends upon a variety of factors, particularly the ability of the investment managers to predict movements of the underlying securities markets, which requires different skills than predicting changes in the prices of individual securities. There can be no assurance that any particular futures strategy adopted will succeed.

**Forward Contracts.** A forward contract involves a negotiated obligation to purchase or sell a specific security or currency at a future date (with or without delivery required), which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. Forward contracts are not traded on exchanges; rather, a bank or dealer will act as agent or as principal in order to make or take future delivery of a specified lot of a particular security or currency for a Fund’s account. Risks associated with forwards may include: (i) an imperfect correlation between the movement in prices of forward contracts and the securities or currencies underlying them; (ii) an illiquid market for forwards; (iii) difficulty in
obtaining an accurate value for the forwards; and (iv) the risk that the counterparty to the forward contract will default or otherwise fail to honor its obligation. Because forwards require only a small initial investment in the form of a deposit or margin, they also involve a high degree of leverage.

**Options.** Options involve the payment or receipt of a premium by the investor and the corresponding right or obligation, as the case may be, to either purchase or sell the underlying security for a specific price at a certain time or during a certain period. Purchasing options involves the risk that the underlying instrument will not change price in the manner expected, so that the investor loses its premium. Selling options involves potentially greater risk because the investor is exposed to the extent of the actual price movement in the underlying security rather than only the premium payment received (which could result in a potentially unlimited loss). If a Fund writes a “covered” call option (i.e., a call option on a security in which the Fund holds a long position), the Fund may not participate fully in a rise in market value of the underlying security. Over-the-counter options also involve counterparty solvency risk.

**Swaps.** In a swap transaction, two parties agree to exchange the returns, differentials in rates of return or some other amount earned or realized on the “notional amount” of predetermined investments or instruments, which may be adjusted for an interest factor. Swaps can involve greater risks than direct investment in securities, because swaps may be leveraged and are subject to counterparty risk and valuation risk. Swaps may also be considered illiquid. It may not be possible for a Fund to liquidate a swap position at an advantageous time or price, which may result in significant losses.

**Indexing Strategy/Index Tracking Risk (U.S. All Cap Index Fund)** — The Fund is managed with an indexing investment strategy, attempting to track the performance of an unmanaged index of securities. The Fund will seek to replicate the Knights of Columbus U.S. All Cap Index (the “Index”) returns, regardless of the current or projected performance of the Index or of the actual securities comprising the Index. This differs from an actively-managed fund, which typically seeks to outperform a benchmark index. The Fund generally will buy and will not sell a security included in the Index as long as the security is part of the Index regardless of any sudden or material decline in value or foreseeable material decline in value of the security, even though the Sub-Adviser may make a different
investment decision for other actively managed accounts or portfolios that hold the security. As a result, the Fund’s performance may be less favorable than that of a portfolio managed using an active investment strategy. The structure and composition of the Index will affect the performance, volatility, and risk of the Index (in absolute terms and by comparison with other indices) and, consequently, the performance, volatility, and risk of the Fund. While the Sub-Adviser seeks to track the performance of the Index (i.e., achieve a high degree of correlation with the Index), the Fund’s return may not match the return of the Index. The Fund incurs a number of operating expenses not applicable to the Index, and incurs costs in buying and selling securities. In addition, the Fund may not be fully invested at times, either as a result of cash flows into or out of the Fund or reserves of cash held by the Fund to meet redemptions. Changes in the composition of the Index and regulatory requirements also may impact the Fund’s ability to match the return of the Index. Index tracking risk may be heightened during times of increased market volatility or other unusual market conditions.

Large Purchase and Redemption Risk (All Funds) — Large purchases or redemptions of a Fund’s shares may affect such Fund, since the Fund may be required to sell portfolio securities if it experiences redemptions, and the Fund will need to invest additional cash that it receives. While it is impossible to predict the overall impact of these transactions over time, there could be adverse effects on Fund management or performance to the extent a Fund may be required to sell securities or invest cash at times when it would not otherwise do so. These transactions could also have tax consequences if sales of securities result in gains, and could also increase transaction costs or portfolio turnover. The investment managers are committed to minimizing the impact of such transactions on a Fund, and may seek to effect the transactions in-kind, to the extent consistent with pursuing the investment objective of such Fund.

INFORMATION ABOUT PORTFOLIO HOLDINGS

A description of the Funds’ policies and procedures with respect to the circumstances under which the Funds disclose their portfolio holdings is available in the SAI. Each Fund publishes a list of its ten largest portfolio holdings, and the percentage of the Fund’s assets that each of these holdings represents, on a monthly basis, within thirty (30) days after the end of the month. For example, the Funds’ investments as of the end of January would ordinarily be published at the end of February. The portfolio information described above can be found on
the internet at www.kofcassetadvisors.org. The Adviser may exclude any portion of a Fund’s portfolio holdings from such publication when deemed in the best interest of the Fund. The portfolio holdings information placed on the Funds’ website generally will remain there until replaced by new postings as described above.

INVESTMENT ADVISER

Knights of Columbus Asset Advisors LLC, a Delaware limited liability company organized in 2014, serves as the investment adviser to the Funds. The Adviser’s principal place of business is located at One Columbus Plaza, New Haven, Connecticut 06510. Knights of Columbus Asset Advisors is a wholly-owned subsidiary of Knights of Columbus, a fraternal benefit society organized under the laws of the State of Connecticut. As of July 31, 2019, the Adviser had approximately $24.03 billion in assets under management.

The Adviser makes investment decisions for the Funds and continuously reviews, supervises and administers each Fund’s investment program. In addition, the Adviser oversees L2 Asset Management, LLC (“L2 Asset Management”) and Ranger Global Real Estate Advisors, LLC (“Ranger,” and, together with L2 Asset Management, the “Sub-Advisers”) to ensure their compliance with the investment policies and guidelines of the Funds, and monitors the Sub-Advisers’ adherence to their investment styles. The Board supervises the Adviser and the Sub-Advisers and establishes policies that the Adviser and the Sub-Advisers must follow in their management activities. The Adviser pays the Sub-Advisers out of the advisory fees it receives from the Funds.

For its services to the Funds, the Adviser is entitled to a fee, which is calculated daily and paid monthly, at the following annual rates based on the average daily net assets of each Fund.

<table>
<thead>
<tr>
<th>Fund</th>
<th>Advisory Fee Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Long/Short Equity Fund</td>
<td>1.25%</td>
</tr>
<tr>
<td>U.S. All Cap Index Fund</td>
<td>0.20%</td>
</tr>
<tr>
<td>Global Real Estate Fund</td>
<td>0.85%</td>
</tr>
</tbody>
</table>

For each Fund, the Adviser has contractually agreed to reduce its fees and/or reimburse expenses to the extent necessary to keep total annual Fund operating expenses (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, dividend and interest expenses on securities sold short, non-routine expenses and any class-specific expenses (including distribution and/or service (12b-1) fees
and shareholder servicing fees) (collectively, “excluded expenses”) for I Shares, Class S Shares and Investor Shares from exceeding certain levels as set forth below until February 28, 2021 (each, a “contractual expense limit”). This agreement may be terminated by: (i) the Board, for any reason at any time; or (ii) the Adviser, upon ninety (90) days’ prior written notice to the Trust, effective as of the close of business on February 28, 2021.

<table>
<thead>
<tr>
<th>Fund</th>
<th>Contractual Expense Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Long/Short Equity Fund</td>
<td>1.50%</td>
</tr>
<tr>
<td>U.S. All Cap Index Fund</td>
<td>0.25%</td>
</tr>
<tr>
<td>Global Real Estate Fund</td>
<td>1.00%</td>
</tr>
</tbody>
</table>

In addition, the Adviser may receive from a Fund the difference between the total annual Fund operating expenses (not including excluded expenses) and the contractual expense limit to recoup all or a portion of its prior fee waivers or expense reimbursements made during the rolling three-year period preceding the recoupment if at any point total annual Fund operating expenses (not including excluded expenses) are below the contractual expense limit (i) at the time of the fee waiver and/or expense reimbursement and (ii) at the time of the recoupment.

INVESTMENT SUB-AVISERS

L2 Asset Management, LLC

L2 Asset Management, LLC, a Delaware limited liability company, serves as the investment sub-adviser to the Long/Short Equity Fund and the U.S. All Cap Index Fund. L2 Asset Management is 100% employee-owned. L2 Asset Management’s principal place of business is located at 66 Glezen Lane, Wayland, Massachusetts 01778. As of July 31, 2019, L2 Asset Management had approximately $115 million in assets under management.

Ranger Global Real Estate Advisors, LLC

Ranger Global Real Estate Advisors, LLC, a Delaware limited liability company, serves as the investment sub-adviser to the Global Real Estate Fund. Ranger is employee controlled. Knights of Columbus is a minority shareholder of Ranger. Ranger’s principal place of business is located at 415 Madison Avenue, 14th Floor, New York, New York.
As of July 31, 2019, Ranger had approximately $978.5 million in assets under management.

A discussion regarding the basis for the Board’s approval of the Funds’ investment advisory agreement and investment sub-advisory agreements will be available in the Funds’ first Annual or Semi-Annual Report to Shareholders.

**DORMANT MULTI-MANAGER ARRANGEMENT**

The Board has approved a “multi-manager” arrangement for the Funds. Under this arrangement, the Funds and the Adviser may engage one or more sub-advisers to make day-to-day investment decisions for the Funds’ assets. The Adviser retains ultimate responsibility (subject to the oversight of the Board) for overseeing the sub-advisers and may, at times, recommend to the Board that a Fund: (1) change, add or terminate one or more sub-advisers; (2) continue to retain a sub-adviser even though the sub-adviser’s ownership or corporate structure has changed; or (3) materially change a sub-advisory agreement with a sub-adviser.

Applicable law generally requires a Fund to obtain shareholder approval for most of these types of recommendations, even if the Board approves the proposed action. Under the “multi-manager” arrangement approved by the Board, the Funds may seek exemptive relief, if necessary, from the SEC to (i) permit the Adviser (subject to the Board’s oversight and approval) to make decisions about a Fund’s sub-advisory arrangements without obtaining shareholder approval, and (ii) permit a Fund to not disclose the fees paid to individual sub-advisers. There is no guarantee the SEC would grant such exemptive relief. The Funds will continue to submit matters to shareholders for their approval and disclose sub-advisory fees to the extent required by applicable law. Meanwhile, this multi-manager arrangement will remain dormant and will not be implemented until shareholders are further notified.

**PORTFOLIO MANAGERS**

The Funds are each managed by a team of investment professionals that are jointly and primarily responsible for the day to day management of the Funds.
L2 Asset Management

Dr. Sanjeev Bhojraj is a Portfolio Manager at L2 Asset Management, which he co-founded in 2014. Dr. Bhojraj is a Chaired Professor in Asset Management, since 1999, and the former Director of the Parker Center for Investment Research at Johnson Graduate School of Management, Cornell University. Since 2010, he also has served as Managing Member of Kailash Capital, LLC. Dr. Bhojraj has a Ph.D. from the University of Florida, a B.Com. from the University of Madras, an ACA designation from the Institute of Chartered Accountants of India and an ACMA designation from the Institute of Cost Accountants of India.

Mr. Matthew Malgari is a Managing Member and Portfolio Manager at L2 Asset Management, which he co-founded in 2014. Since 2013, he also has served as Managing Member of Kailash Capital, LLC. Previously, Mr. Malgari was a portfolio manager at Baird LargeCap Fund from 2013 to 2017. He also spent 14 years at Fidelity Management & Research Company working as an assistant portfolio manager, sector analyst, diversified analyst and trader, before becoming a Managing Director of Equity Research for Knight Capital Group in 2010. Mr. Malgari received a B.A. from Middlebury College and an M.B.A from Johnson Graduate School of Management, Cornell University.

Ranger

Mr. Andrew J. Duffy, CFA, is a Managing Member, Chief Investment Officer and Senior Portfolio Manager at Ranger. Prior to joining Ranger in 2016, Mr. Duffy was President of Ascent Investment Advisors, LLC ("Ascent") from February 2009 to May 2016 and Senior Portfolio Manager of Ascent from February 2009 to November 2016. From January 2008 through February 2009, Mr. Duffy was a Managing Director with Citigroup Principal Strategies, where he managed a long/short portfolio of global real estate securities. From February 2006 until December 2007, he was with Hunter Global Investors, L.P where he was the Co-Portfolio Manager of the Hunter Global Real Estate Fund. From 1999 to 2006, he was a Portfolio Manager at TIAA-CREF, during which time he was directly responsible for managing over $3 billion in global real estate equity and debt securities held in pension portfolios, college savings plans, open-end mutual funds and the firm’s proprietary general account. Between 1993 and 1999, Mr. Duffy was a Senior Research Analyst at Eagle Asset Management, where he launched and managed a dedicated real estate securities investment program in which he was responsible for fundamental analysis, security selection, portfolio construction and the covered call option
writing strategy. His other professional experience includes being a Partner at Raymond James & Associates where, as an investment banker, he managed public offerings and advised on mergers and acquisitions. Prior to his career in investments, Mr. Duffy served for five years as an officer in the United States Army. Mr. Duffy received a B.S. in electrical engineering from the United States Military Academy at West Point in 1979 as a Distinguished Graduate (top 5% of class) and an M.B.A. from Harvard Business School in 1986. He earned the Chartered Financial Analyst (“CFA”) designation in 1997.

The SAI provides additional information about the portfolio managers’ compensation, other accounts managed, and ownership of Fund shares.

RELATED PERFORMANCE DATA OF L2 ASSET MANAGEMENT, LLC (LONG/SHORT EQUITY FUND)

The following tables give the related performance of all accounts (each, an “Account”), referred to as a “Composite,” managed by L2 Asset Management that have investment objectives, policies and strategies substantially similar to those of the Fund. The data illustrates the past performance of L2 Asset Management in managing substantially similar accounts. The data does not represent the performance of the Fund. Performance is historical and does not represent the future performance of the Fund or of L2 Asset Management.

The manner in which the performance was calculated for the Composite differs from that of registered mutual funds such as the Fund. If the performance was calculated in accordance with SEC standardized performance methodology, the performance results may have been different. The Composite performance has been calculated in accordance with the Global Investment Performance Standards (“GIPS®”), but differs from the Composite performance with respect to which L2 Asset Management has claimed GIPS compliance because, for the period from July 1, 2015 through December 31, 2015, “net of fees” returns reflect the deduction of management fees that were voluntarily waived for the Accounts for that period. The Composite performance information is calculated in and expressed in United States dollars.

All returns presented were calculated on a total return basis and include all dividends and interest, accrued income, and realized and unrealized gains and losses. Investment transactions are accounted for on a trade date basis. “Net of fees” returns reflect the deduction of investment management fees and performance fees, as well as the deduction of any brokerage commissions, execution costs, withholding taxes, sales loads
and account fees paid by the Accounts, without taking into account federal or state income taxes, while “gross of fees” returns do not reflect the deduction of investment management fees or performance fees. All fees and expenses, except custodial fees, if any, were included in the calculations. For the period from July 1, 2015 through December 31, 2015, “net of fees” returns reflect the deduction of management fees that were voluntarily waived for the Accounts for that period.

Because of variation in fee levels, the Composite returns may not be reflective of performance in any one particular Account. Therefore, the performance information shown below is not necessarily representative of the performance information that typically would be shown for a registered mutual fund.

The Fund’s fees and expenses are generally expected to be higher than those of the Composite. If the Fund’s fees and expenses had been imposed on the Composite, the performance shown below would have been lower. The Accounts are also not subject to the diversification requirements, specific tax restrictions, and investment limitations imposed on the Fund by the federal securities and tax laws. Consequently, the performance results for the Composite could have been adversely affected if the Accounts were subject to the same federal securities and tax laws as the Fund.

The investment results for the Composite presented below are not intended to predict or suggest the future returns of the Fund. The performance data shown below should not be considered a substitute for the Fund’s own performance information. Investors should be aware that the use of a methodology different than that used below to calculate performance could result in different performance data.

THE FOLLOWING DATA DOES NOT REPRESENT THE PERFORMANCE OF THE FUND.

**RELATED PERFORMANCE DATA OF RANGER GLOBAL REAL ESTATE ADVISORS, LLC AND THE PORTFOLIO MANAGER (GLOBAL REAL ESTATE FUND)**

The following tables give the related performance of all accounts managed by Ranger that have investment objectives, policies and strategies substantially similar to those of the Fund (the “Ranger Comparable Accounts”) and all accounts managed by Andrew J. Duffy, CFA, while employed by a firm unaffiliated with Ranger that had investment objectives, policies and strategies substantially similar to those of the Fund (the “Prior Comparable Accounts,” and, together with the Ranger Comparable Accounts, the “Accounts”). **The data does not represent the performance of the Fund.** Performance is historical and does not represent the future performance of the Fund or of Ranger.

Mr. Duffy is primarily responsible for the day-to-day management of the Fund and the Ranger Comparable Accounts, and was primarily responsible for the day-to-day management of the Prior Comparable Accounts. Mr. Duffy exercises final decision-making authority over all material aspects concerning the investment objective, policies, strategies, and security selection decisions of the Fund and the Ranger
Comparable Accounts, and exercised the same level of authority and discretion in managing the Prior Comparable Accounts. While at the prior firm, Mr. Duffy managed no other accounts with investment objectives, policies and strategies substantially similar to those of the Fund and the Ranger Comparable Accounts.

The manner in which the performance was calculated for the Accounts differs from that of registered mutual funds such as the Fund. If the performance was calculated in accordance with SEC standardized performance methodology, the performance results may have been different. Ranger has calculated the performance consistent with the Global Investment Performance Standards (“GIPS®”). Ranger’s policies on calculating performance and preparing GIPS® compliant performance presentations are available upon request. The performance information is calculated in and expressed in United States dollars.

All returns presented were calculated on a total return basis and include all dividends and interest, accrued income, and realized and unrealized gains and losses. Investment transactions are accounted for on a trade date basis. “Net of fees” returns reflect the deduction of investment management fees, as well as the deduction of any brokerage commissions, execution costs, withholding taxes, sales loads and account fees paid by the Accounts, without taking into account federal or state income taxes, while “gross of fees” returns do not reflect the deduction of investment management fees. All fees and expenses, except custodial fees, if any, were included in the calculations.

Because of variation in fee levels, the returns presented for the Accounts may not be reflective of performance in any one particular Account. Therefore, the performance information shown below is not necessarily representative of the performance information that typically would be shown for a registered mutual fund.

Certain Accounts are not subject to the diversification requirements, specific tax restrictions, and investment limitations imposed on the Fund by the federal securities and tax laws. Consequently, the performance results for the Accounts could have been adversely affected if all of the Accounts were subject to the same federal securities and tax laws as the Fund.

The investment results for the Accounts presented below are not intended to predict or suggest the future returns of the Fund. The performance data shown below should not be considered a substitute for the Fund’s own performance information. Investors should be aware that the use of a methodology different than that used
below to calculate performance could result in different performance data.

THE FOLLOWING DATA DOES NOT REPRESENT THE PERFORMANCE OF THE FUND.

PURCHASING, SELLING AND EXCHANGING FUND SHARES

This section tells you how to purchase, sell (sometimes called “redeem”) and exchange shares of the Funds.

For information regarding the federal income tax consequences of transactions in shares of the Funds, including information about cost basis reporting, see “Taxes.”

How to Choose a Share Class

Each Fund offers three classes of shares to investors, I Shares, Class S Shares and Investor Shares. Each share class has its own shareholder eligibility criteria, investment minimums, cost structure and other features. The following summarizes the primary features of I Shares, Class S Shares and Investor Shares. Contact your financial intermediary
or the Funds for more information about the Funds’ share classes and how to choose between them.

<table>
<thead>
<tr>

<td>Initial: $1,000</td>
<td>0.25% Rule 12b-1 fee</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Subsequent: None</td>
<td>Shareholder Servicing Fee of up to 0.20%</td>
</tr>
</tbody>
</table>

I Shares, Class S Shares and Investor Shares are offered to investors who purchase shares directly from the Funds or through certain financial intermediaries such as financial planners, investment advisors, broker-dealers or other financial institutions. An investor may be eligible to purchase more than one share class. However, if you purchase shares through a financial intermediary, you may only purchase that class of shares which your financial intermediary sells or services. Your financial intermediary can tell you which class of shares is available through the intermediary.

The Funds reserve the right to change the criteria for eligible investors and, as disclosed in the “Minimum Purchases” section of the prospectus, accept investments of smaller amounts in their sole discretion.

**How to Purchase Fund Shares**

To purchase shares directly from the Funds through their transfer agent, complete and send in the application. If you need an application or have questions, please call 1-844-KC-FUNDS (1-844-523-8637).

All investments must be made by check, Automated Clearing House (“ACH”), or wire. All checks must be made payable in U.S. dollars and drawn on U.S. financial institutions. The Funds do not accept purchases made by third-party checks, credit cards, credit card checks, cash, traveler’s checks, money orders or cashier’s checks.
The Funds reserve the right to reject any specific purchase order, including exchange purchases, for any reason. The Funds are not intended for short-term trading by shareholders in response to short-term market fluctuations. For more information about the Funds’ policy on short-term trading, see “Excessive Trading Policies and Procedures.”

The Funds do not generally accept investments by non-U.S. persons. Non-U.S. persons may be permitted to invest in the Funds subject to the satisfaction of enhanced due diligence. Please contact the Funds for more information.

By Mail

You can open an account with the Funds by sending a check and your account application to the address below. You can add to an existing account by sending the Funds a check and, if possible, the “Invest by Mail” stub that accompanies your confirmation statement. Be sure your check identifies clearly your name, your account number, the Fund name and the share class.

Kansas City, MO 64105

The Funds do not consider the U.S. Postal Service or other independent delivery services to be their agents. Therefore, deposit in the mail or with such services of purchase orders does not constitute receipt by the Funds’ transfer agent. The share price used to fill the purchase order is the next price calculated by a Fund after the Funds’ transfer agent receives the order in proper form at the P.O. Box provided for regular mail delivery or the office address provided for express mail delivery.

By Wire

To open an account by wire, call 1-844-KC-FUNDS (1-844-523-8637) for details. To add to an existing account by wire, wire your money
using the wiring instructions set forth below (be sure to include the Fund name, the share class and your account number).

**Wiring Instructions**

UMB Bank, N.A.
ABA # 101000695
Catholic Investor Funds

Ref: Fund name/share class/account number/account name

**By Systematic Investment Plan (via ACH)**

You may not open an account via ACH. However, once you have established a direct account with the Funds, you can set up an automatic investment plan via ACH by mailing a completed application to the Funds. These purchases can be made monthly, quarterly, semi-annually or annually in amounts of at least $250. To cancel or change a plan, contact the Funds by mail at: Catholic Investor Funds, P.O. Box 219009, Kansas City, MO 64121-9009 (Express Mail Address: Catholic Investor Funds, c/o DST Systems, Inc., 430 W 7th Street, Kansas City, MO 64105). Please allow up to 15 days to create the plan and 3 days to cancel or change it.

**Purchases In-Kind**

Subject to the approval of the Funds, an investor may purchase shares of each Fund with liquid securities and other assets that are eligible for purchase by that Fund (consistent with the Fund’s investment policies and restrictions) and that have a value that is readily ascertainable in accordance with the Fund’s valuation policies. These transactions will be effected only if the Adviser or a Sub-Adviser deems the security to be an appropriate investment for a Fund. Assets purchased by a Fund in such transactions will be valued in accordance with procedures adopted by the Funds. The Funds reserve the right to amend or terminate this practice at any time.

**Minimum Purchases**

To purchase I Shares of the Funds for the first time, you must invest, in the aggregate, at least $25,000 in one or more Catholic Investor Fund(s). If you hold I Shares of a Catholic Investor Fund, you may purchase I Shares of the same Fund, or purchase I Shares of any other Catholic Investor Fund, in amounts of at least $250.

To purchase Investor Shares of the Funds for the first time, you must invest, in the aggregate, at least $1,000 in one or more Catholic Investor Fund(s). If you hold Investor Shares of a Catholic Investor Fund, there
is no minimum for purchases of Investor Shares of the same Fund, or purchases of Investor Shares of any other Catholic Investor Fund.

There is no minimum initial or subsequent investment amount for Class S Shares of the Funds.

The Funds may accept investments of smaller amounts in their sole discretion.

**Fund Codes**

The Funds’ reference information, which is listed below, will be helpful to you when you contact a Fund to purchase or exchange shares, check daily NAV, or obtain additional information.

**General Information**

You may generally purchase shares on any day that the NYSE is open for business (a “Business Day”). Shares cannot be purchased by Federal Reserve wire on days that either the NYSE or the Federal Reserve is closed.

A Fund’s price per share will be the next determined NAV per share after the Fund or an authorized institution (as defined below) receives your purchase order in proper form. “Proper form” means that the Fund was provided with a complete and signed account application, including the investor’s social security number or tax identification number, and other identification required by law or regulation, as well as sufficient purchase proceeds.

Each Fund calculates its NAV once each Business Day as of the close of normal trading on the NYSE (normally, 4:00 p.m., Eastern Time).
To receive the current Business Day’s NAV, a Fund or an authorized institution must receive your purchase order in proper form before the close of normal trading on the NYSE. If the NYSE closes early, as in the case of scheduled half-day trading or unscheduled suspensions of trading, the Funds reserve the right to calculate NAV as of the earlier closing time. The Funds will not accept orders that request a particular day or price for the transaction or any other special conditions. Shares will only be priced on Business Days. Since securities that are traded on foreign exchanges may trade on days that are not Business Days, the value of a Fund’s assets may change on days when you are unable to purchase or redeem shares.

**Buying or Selling Shares through a Financial Intermediary**

In addition to being able to buy and sell Fund shares directly from the Funds through their transfer agent, you may also buy or sell shares of a Fund through accounts with financial intermediaries, such as brokers and other institutions that are authorized to place trades in Fund shares for their customers. When you purchase or sell Fund shares through a financial intermediary (rather than directly from a Fund), you may have to transmit your purchase and sale requests to the financial intermediary at an earlier time for your transaction to become effective that day. This allows the financial intermediary time to process your requests and transmit them to the Fund prior to the time the Fund calculates its NAV that day. Your financial intermediary is responsible for transmitting all purchase and redemption requests, investment information, documentation and money to a Fund on time. If your financial intermediary fails to do so, it may be responsible for any resulting fees or losses. Unless your financial intermediary is an authorized institution, orders transmitted by the financial intermediary and received by a Fund after the time NAV is calculated for a particular day will receive the following day’s NAV.

Certain financial intermediaries, including certain broker-dealers and shareholder organizations, are authorized to act as agent on behalf of the Funds with respect to the receipt of purchase and redemption orders for Fund shares (“authorized institutions”). Authorized institutions are also authorized to designate other intermediaries to receive purchase and redemption orders on a Fund’s behalf. A Fund will be deemed to have received a purchase or redemption order when an authorized institution or, if applicable, an authorized institution’s designee, receives the order. Orders will be priced at a Fund’s next computed NAV after they are received by an authorized institution or an authorized institution’s designee. To determine whether your
financial intermediary is an authorized institution or an authorized
institutions’s designee such that it may act as agent on behalf of a Fund
with respect to purchase and redemption orders for Fund shares, you
should contact your financial intermediary directly.

If you deal directly with a financial intermediary, you will have to
follow its procedures for transacting with a Fund. Your financial
intermediary may charge a fee for your purchase and/or redemption
transactions. For more information about how to purchase or sell
Fund shares through a financial intermediary, you should contact your
financial intermediary directly.

How the Funds Calculate NAV

The NAV of a class of a Fund’s shares is determined by dividing
the total value of the Fund’s portfolio investments and other assets
attributable to the class, less any liabilities attributable to the class, by
the total number of shares outstanding of the class.

In calculating NAV, each Fund generally values its investment portfolio
at market price. If market prices are not readily available or a Fund
reasonably believes that they are unreliable, such as in the case of a
security value that has been materially affected by events occurring
after the relevant market closes, the Fund is required to price those
securities at fair value as determined in good faith using methods
approved by the Board. Pursuant to the policies adopted by, and under
the ultimate supervision of, the Board, these methods are implemented
through the Trust’s Fair Value Pricing Committee, members of which
are appointed by the Board. A Fund’s determination of a security’s
fair value price often involves the consideration of a number of
subjective factors, and is therefore subject to the unavoidable risk that
the value that the Fund assigns to a security may be higher or lower
than the security’s value would be if a reliable market quotation for
the security was readily available. The respective prospectuses for the
open-end investment companies in which a Fund invests explain the
circumstances in which those investment companies will use fair value
pricing and the effect of fair value pricing.

There may be limited circumstances in which a Fund would price
securities at fair value for stocks of U.S. companies that are traded
on U.S. exchanges – for example, if the exchange on which a portfolio
security is principally traded closed early or if trading in a particular
security was halted during the day and did not resume prior to the
time the Fund calculated its NAV.
With respect to non-U.S. securities held by a Fund, the Fund may take factors influencing specific markets or issuers into consideration in determining the fair value of a non-U.S. security. International securities markets may be open on days when the U.S. markets are closed. In such cases, the value of any international securities owned by a Fund may be significantly affected on days when investors cannot buy or sell shares. In addition, due to the difference in times between the close of the international markets and the time as of which the Fund prices its shares, the value the Fund assigns to securities may not be the same as the quoted or published prices of those securities on their primary markets or exchanges. In determining fair value prices, a Fund may consider the performance of securities on their primary exchanges, foreign currency appreciation/depreciation, securities market movements in the United States, or other relevant information related to the securities.

Redeemable securities issued by open-end investment companies in which a Fund invests are valued at the investment company’s applicable NAV.

Other assets for which market quotations are not readily available will be valued at their fair value as determined in good faith by or under the direction of the Board.

How to Sell Your Fund Shares

If you own your shares directly, you may sell your shares on any Business Day by contacting the Funds directly by mail or telephone at 1-844-KC-FUNDS (1-844-523-8637).

If you own your shares through an account with a broker or other institution, contact that broker or institution to sell your shares. Your broker or institution may charge a fee for its services in addition to the fees charged by the Funds.

If you would like to have your redemption proceeds, including proceeds generated as a result of closing your account, sent to a third party or an address other than your own, please notify the Funds in writing.

Certain redemption requests will require a signature guarantee by an eligible guarantor institution. Eligible guarantors include commercial banks, savings and loans, savings banks, trust companies, credit unions, member firms of a national stock exchange, or any other member or participant of an approved signature guarantor program. For example, signature guarantees may be required if your address of record has changed in the last 30 days, if you want the proceeds
sent to a bank other than the bank of record on your account, or if you ask that the proceeds be sent to a different person or address. Please note that a notary public is not an acceptable provider of a signature guarantee and that the Funds must be provided with the original guarantee. Signature guarantees are for the protection of Fund shareholders. Before granting a redemption request, the Funds may require a shareholder to furnish additional legal documents to ensure proper authorization.

Accounts held by a corporation, trust, fiduciary or partnership, may require additional documentation along with a signature guaranteed letter of instruction. The Funds participate in the Paperless Legal Program (the “Program”), which eliminates the need for accompanying paper documentation on legal securities transfers. Requests received with a Medallion Signature Guarantee will be reviewed for the proper criteria to meet the guidelines of the Program and may not require additional documentation. Please contact Shareholder Services at 1-844-KC-FUNDS (1-844-523-8637) for more information.

The sale price of each share will be the next determined NAV after a Fund (or an authorized institution) receives your request in proper form.

By Mail

To redeem shares by mail, please send a letter to the Funds signed by all registered parties on the account specifying:

• The Fund name;
• The share class;
• The account number;
• The dollar amount or number of shares you wish to redeem;
• The account name(s); and
• The address to which redemption (sale) proceeds should be sent.

All registered shareholders must sign the letter in the exact name(s) and must designate any special capacity in which they are registered.

Regular Mail Address

Catholic Investor Funds
P.O. Box 219009
Kansas City, MO 64121-9009
By Telephone

To redeem shares by telephone, you must first establish the telephone redemption privilege (and, if desired, the wire and/or ACH redemption privilege) by completing the appropriate sections of the account application. Call 1-844-KC-FUNDS (1-844-523-8637) to redeem your shares. Based on your instructions, the Funds will mail your proceeds to you, or send them to your bank via wire or ACH.

By Systematic Withdrawal Plan (via ACH)

If you have a direct account with the Funds and your account balance is at least $50,000 for I Shares, $100,000 for Class S Shares or $10,000 for Investor Shares, you may transfer as little as $250 per month from your account to another financial institution through a Systematic Withdrawal Plan (via ACH). The minimum balance requirements may be modified by the Funds in their sole discretion. To participate in this service, you must complete the appropriate sections of the account application and mail it to the Funds.

Receiving Your Money

Normally, a Fund will send your sale proceeds within two Business Days after it receives your redemption request. A Fund, however, may take up to seven days to pay redemption proceeds. Your proceeds can be wired to your bank account (may be subject to a $10 fee), sent to you by check or sent via ACH to your bank account if you have established banking instructions on your account. If you purchase shares using a check or via ACH, and soon after request a redemption, if the check has not cleared the Funds will not consider the request to be in “proper form” and will not honor the redemption request.
A Fund typically expects to sell portfolio assets and/or hold cash or cash equivalents to meet redemption requests. On a less regular basis, a Fund may also meet redemption requests by using short-term borrowings from its custodian and/or redeeming shares in-kind (as described below). These methods may be used during both normal and stressed market conditions.

Redemptions In-Kind
The Funds generally pay sale (redemption) proceeds in cash. However, under unusual conditions that make the payment of cash unwise and for the protection of the Funds’ remaining shareholders, the Funds might pay all or part of your redemption proceeds in securities with a market value equal to the redemption price (redemption in-kind). It is highly unlikely that your shares would ever be redeemed in-kind, but if they were, you would have to pay transaction costs to sell the securities distributed to you, as well as taxes on any capital gains from the sale as with any redemption. In addition, you would continue to be subject to the risks of any market fluctuation in the value of the securities you receive in-kind until they are sold.

Involuntary Redemptions of Your Shares
If your aggregate Catholic Investor Fund holdings drop below $25,000 for I Shares or $1,000 for Investor Shares, you may be required to sell your shares. The Funds generally will provide you at least 30 days’ written notice to give you time to add to your account and avoid the involuntary redemption of your shares. The Funds reserve the right to waive the minimum account value requirement in their sole discretion. If your Fund shares are redeemed for this reason within 30 days of their purchase, the redemption fee will not be applied.

Suspension of Your Right to Sell Your Shares
The Funds may suspend your right to sell your shares or delay payment of redemption proceeds for more than seven days during times when the NYSE is closed, other than during customary weekends or holidays, or as otherwise permitted by the SEC. More information about this is in the SAI.

How to Exchange Your Fund Shares
At no charge, you may exchange I Shares, Class S Shares or Investor Shares of one Catholic Investor Fund for I Shares, Class S Shares or Investor Shares, respectively, of another Catholic Investor Fund by writing to or calling the Funds. Exchanges are subject to the minimum
investment requirements and the fees and expenses of the Catholic Investor Fund you exchange into. You may only exchange shares between accounts with identical registrations (i.e., the same names and addresses).

The exchange privilege is not intended as a vehicle for short-term or excessive trading. A Fund may suspend or terminate your exchange privilege if you engage in a pattern of exchanges that is excessive, as determined in the sole discretion of the Funds. For more information about the Funds’ policy on excessive trading, see “Excessive Trading Policies and Procedures.”

Telephone Transactions

Purchasing, selling and exchanging Fund shares over the telephone is extremely convenient, but not without risk. Although the Funds have certain safeguards and procedures to confirm the identity of callers and the authenticity of instructions, the Funds are not responsible for any losses or costs incurred by following telephone instructions they reasonably believe to be genuine. If you or your financial institution transact with the Funds over the telephone, you will generally bear the risk of any loss.

PAYMENTS TO FINANCIAL INTERMEDIARIES

The Funds and/or the Adviser may compensate financial intermediaries for providing a variety of services to the Funds and/or their shareholders. Financial intermediaries include affiliated or unaffiliated brokers, dealers, banks (including bank trust departments), trust companies, registered investment advisers, financial planners, retirement plan administrators, insurance companies, and any other institution having a service, administration, or any similar arrangement with the Funds, their service providers or their respective affiliates. This section briefly describes how financial intermediaries may be paid for providing these services. For more information, please see “Payments to Financial Intermediaries” in the SAI.

Distribution Plan

The Funds have adopted a distribution plan under Rule 12b-1 of the 1940 Act for Investor Shares that allows the Funds to pay distribution and/or service fees for the sale and distribution of Fund shares, and for services provided to shareholders. Because these fees are paid out of a Fund’s assets on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other
types of sales charges. The maximum annual Rule 12b-1 fee for Investor Shares of a Fund is 0.25%.

Shareholder Servicing Plan

The Funds have adopted a shareholder servicing plan that provides that the Funds may pay financial intermediaries for shareholder services in an annual amount not to exceed 0.20% based on the average daily net assets of the Funds’ Class S Shares and Investor Shares. The services for which financial intermediaries are compensated may include record-keeping, transaction processing for shareholders’ accounts and other shareholder services.

Payments by the Adviser

From time to time, the Adviser and/or its affiliates, in their discretion, may make payments to certain affiliated or unaffiliated financial intermediaries to compensate them for the costs associated with distribution, marketing, administration and shareholder servicing support for the Funds. These payments are sometimes characterized as “revenue sharing” payments and are made out of the Adviser’s and/or its affiliates’ own legitimate profits or other resources, and may be in addition to any payments made to financial intermediaries by the Funds. A financial intermediary may provide these services with respect to Fund shares sold or held through programs such as retirement plans, qualified tuition programs, fund supermarkets, fee-based advisory or wrap fee programs, bank trust programs, and insurance (e.g., individual or group annuity) programs. In addition, financial intermediaries may receive payments for making shares of the Funds available to their customers or registered representatives, including providing the Funds with “shelf space,” placing them on a preferred or recommended fund list, or promoting the Funds in certain sales programs that are sponsored by financial intermediaries. To the extent permitted by SEC and Financial Industry Regulatory Authority (“FINRA”) rules and other applicable laws and regulations, the Adviser and/or its affiliates may pay or allow other promotional incentives or payments to financial intermediaries.

The level of payments made by the Adviser and/or its affiliates to individual financial intermediaries varies in any given year and may be negotiated on the basis of sales of Fund shares, the amount of Fund assets serviced by the financial intermediary or the quality of the financial intermediary’s relationship with the Adviser and/or its affiliates. These payments may be more or less than the payments received by the financial intermediaries from other mutual funds and
may influence a financial intermediary to favor the sales of certain funds or share classes over others. In certain instances, the payments could be significant and may cause a conflict of interest for your financial intermediary. Any such payments will not change the NAV or price of a Fund’s shares. Please contact your financial intermediary for information about any payments it may receive in connection with the sale of Fund shares or the provision of services to Fund shareholders.

In addition to these payments, your financial intermediary may charge you account fees, commissions or transaction fees for buying or redeeming shares of the Funds, or other fees for servicing your account. Your financial intermediary should provide a schedule of its fees and services to you upon request.

OTHER POLICIES

Excessive Trading Policies and Procedures

The Funds are intended for long-term investment purposes only and discourage shareholders from engaging in “market timing” or other types of excessive short-term trading. This frequent trading into and out of a Fund may present risks to the Fund’s long-term shareholders and could adversely affect shareholder returns. The risks posed by frequent trading include interfering with the efficient implementation of a Fund’s investment strategies, triggering the recognition of taxable gains and losses on the sale of Fund investments, requiring the Fund to maintain higher cash balances to meet redemption requests, and experiencing increased transaction costs.

Because the Funds may invest in foreign securities traded primarily on markets that close prior to the time a Fund determines its NAV, the risks posed by frequent trading may have a greater potential to dilute the value of Fund shares held by long-term shareholders than funds investing exclusively in U.S. securities. In instances where a significant event that affects the value of one or more foreign securities held by a Fund takes place after the close of the primary foreign market, but before the time that the Fund determines its NAV, certain investors may seek to take advantage of the fact that there will be a delay in the adjustment of the market price for a security caused by this event until the foreign market reopens (sometimes referred to as “price” or “time zone” arbitrage). Shareholders who attempt this type of arbitrage may dilute the value of a Fund’s shares if the prices of the Fund’s foreign securities do not reflect their fair value. Although the Funds have procedures designed to determine the fair value of foreign securities for purposes of calculating their NAV when such an event has occurred,
fair value pricing, because it involves judgments which are inherently subjective, may not always eliminate the risk of price arbitrage.

In addition, because certain Funds invest in small- and mid-cap securities, which often trade in lower volumes and may be less liquid, these Funds may be more susceptible to the risks posed by frequent trading because frequent transactions in the Funds’ shares may have a greater impact on the market prices of these types of securities.

The Funds’ service providers will take steps reasonably designed to detect and deter frequent trading by shareholders pursuant to the Funds’ policies and procedures described in this prospectus and approved by the Board. For purposes of applying these policies, the Funds’ service providers may consider the trading history of accounts under common ownership or control. The Funds’ policies and procedures include:

- Shareholders are restricted from making more than 4 “round trips,” into or out of a Fund within any rolling 12 month period. The Funds define a “round trip” as a purchase or exchange into a Fund by a shareholder, followed by a subsequent redemption out of the Fund, of an amount the Adviser reasonably believes would be harmful or disruptive to the Fund.

- A redemption fee of 2.00% of the value of the shares sold will be imposed on shares redeemed within 30 days or less after their date of purchase (subject to certain exceptions as discussed below in “Redemption Fees”).

- Each Fund reserves the right to reject any purchase or exchange request by any investor or group of investors for any reason without prior notice, including, in particular, if the Fund or the Adviser reasonably believes that the trading activity would be harmful or disruptive to the Fund.

The Funds and/or their service providers seek to apply these policies to the best of their abilities uniformly and in a manner they believe is consistent with the interests of the Funds’ long-term shareholders. The Funds do not knowingly accommodate frequent purchases and redemptions by Fund shareholders. Although these policies are designed to deter frequent trading, none of these measures alone nor all of them taken together eliminate the possibility that frequent trading in a Fund will occur. Systematic purchases and redemptions are exempt from these policies.

Financial intermediaries (such as investment advisers and broker-dealers) often establish omnibus accounts in the Funds for their
customers through which transactions are placed. The Funds have entered into “information sharing agreements” with these financial intermediaries, which permit the Funds to obtain, upon request, information about the trading activity of the intermediary’s customers that invest in the Funds. If the Funds or their service providers identify omnibus account level trading patterns that have the potential to be detrimental to the Funds, the Funds or their service providers may, in their sole discretion, request from the financial intermediary information concerning the trading activity of its customers. Based upon a review of that information, if the Funds or their service providers determine that the trading activity of any customer may be detrimental to the Funds, they may, in their sole discretion, request the financial intermediary to restrict or limit further trading in the Funds by that customer. If the Funds are not satisfied that the intermediary has taken appropriate action, the Funds may terminate the intermediary’s ability to transact in Fund shares. When information regarding transactions in the Funds’ shares is requested by the Funds and such information is in the possession of a person that is itself a financial intermediary to a financial intermediary (an “indirect intermediary”), any financial intermediary with whom the Funds have an information sharing agreement is obligated to obtain transaction information from the indirect intermediary or, if directed by the Funds, to restrict or prohibit the indirect intermediary from purchasing shares of the Funds on behalf of other persons.

The Funds and their service providers will use reasonable efforts to work with financial intermediaries to identify excessive short-term trading in omnibus accounts that may be detrimental to the Funds. However, there can be no assurance that the monitoring of omnibus account level trading will enable the Funds to identify or prevent all such trading by a financial intermediary’s customers. Please contact your financial intermediary for more information.

**Redemption Fee**

In an effort to discourage short-term trading and defray costs incurred by shareholders as a result of short-term trading, each Fund charges a 2.00% redemption fee on redemptions (including exchanges) of shares that have been held for less than 30 days. The redemption fee is deducted from a Fund’s sale proceeds and cannot be paid separately, and any proceeds of the fee are credited to the assets of the Fund from which the redemption was made. The fee does not apply to shares purchased with reinvested dividends or distributions. In determining
how long shares of a Fund have been held, the Fund assumes that shares held by the investor the longest period of time will be sold first.

The redemption fee is applicable to Fund shares purchased either directly from a Fund or through a financial intermediary, such as a broker-dealer. Transactions through financial intermediaries typically are placed with the Fund on an omnibus basis and include both purchase and sale transactions placed on behalf of multiple investors. The Funds request that financial intermediaries assess the redemption fee on customer accounts and collect and remit the proceeds to the Funds. However, the Funds recognize that due to operational and systems limitations, intermediaries’ methods for tracking and calculating the fee may be inadequate or differ in some respects from the Funds’. Therefore, to the extent that financial intermediaries are unable to collect the redemption fee, a Fund may not be able to defray the expenses associated with those short-term trades made by that financial intermediary’s customers.

Each Fund reserves the right to waive its redemption fee at its discretion when it believes such waiver is in the best interests of the Fund, including with respect to certain categories of redemptions that the Fund reasonably believes may not raise frequent trading or market timing concerns. These categories currently include, but are not limited to, the following: (i) participants in certain group retirement plans whose processing systems are incapable of properly applying the redemption fee to underlying shareholders; (ii) redemptions resulting from certain transfers upon the death of a shareholder; (iii) redemptions by certain pension plans as required by law or by regulatory authorities; (iv) systematic withdrawals; and (v) retirement loans and withdrawals.

**Customer Identification and Verification**

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account.

What this means to you: When you open an account, a Fund will ask your name, address, date of birth, and other information that will allow the Fund to identify you. This information is subject to verification to ensure the identity of all persons opening a mutual fund account.

The Funds are required by law to reject your new account application if the required identifying information is not provided.
In certain instances, the Funds are required to collect documents to fulfill their legal obligation. Documents provided in connection with your application will be used solely to establish and verify your identity.

Attempts to collect the missing information required on the application will be performed by either contacting you or, if applicable, your broker or financial intermediary. If this information cannot be obtained within a reasonable timeframe established in the sole discretion of the Funds, your application will be rejected.

Upon receipt of your application in proper form (or upon receipt of all identifying information required on the application), your investment will be accepted and your order will be processed at the next-determined NAV per share.

The Funds reserve the right to close or liquidate your account at the next-determined NAV and remit proceeds to you via check if they are unable to verify your identity. Attempts to verify your identity will be performed within a reasonable timeframe established in the sole discretion of the Funds. Further, the Funds reserve the right to hold your proceeds until your original check clears the bank, which may take up to 15 days from the date of purchase. In such an instance, you may be subject to a gain or loss on Fund shares and will be subject to corresponding tax implications.

**Anti-Money Laundering Program**

Customer identification and verification is part of the Funds’ overall obligation to deter money laundering under federal law. The Funds have adopted an anti-money laundering compliance program designed to prevent the Funds from being used for money laundering or the financing of illegal activities. In this regard, the Funds reserve the right to: (i) refuse, cancel or rescind any purchase or exchange order; (ii) freeze any account and/or suspend account services; or (iii) involuntarily close your account in cases of threatening conduct or suspected fraudulent or illegal activity. These actions will be taken when, in the sole discretion of Fund management, they are deemed to be in the best interest of a Fund or in cases when a Fund is requested or compelled to do so by governmental or law enforcement authority. If your account is closed at the request of governmental or law enforcement authority, you may not receive proceeds of the redemption if the Fund is required to withhold such proceeds.
Unclaimed Property

Each state has unclaimed property rules that generally provide for escheatment (or transfer) to the state of unclaimed property under various circumstances. Such circumstances include inactivity (e.g., no owner-initiated contact for a certain period), returned mail (e.g., when mail sent to a shareholder is returned by the post office, or “RPO,” as undeliverable), or a combination of both inactivity and returned mail. Once it flags property as unclaimed, the applicable Fund will attempt to contact the shareholder, but if that attempt is unsuccessful, the account may be considered abandoned and escheated to the state.

Shareholders that reside in the state of Texas may designate a representative to receive escheatment notifications by completing and submitting a designation form that can be found on the website of the Texas Comptroller. While the designated representative does not have any rights to claim or access the shareholder’s account or assets, the escheatment period will cease if the representative communicates knowledge of the shareholder’s location and confirms that the shareholder has not abandoned his or her property. A completed designation form may be mailed to the Funds (if shares are held directly with the Funds) or to the shareholder’s financial intermediary (if shares are not held directly with the Funds).

More information on unclaimed property and how to maintain an active account is available through your state or by calling 1-844-KC-FUNDS (1-844-523-8637).

DIVIDENDS AND DISTRIBUTIONS

The Funds distribute their net investment income quarterly and make distributions of their net realized capital gains, if any, at least annually. If you own Fund shares on a Fund’s record date, you will be entitled to receive the distribution.

You will receive dividends and distributions in the form of additional Fund shares unless you elect to receive payment in cash. To elect cash payment, you must notify a Fund in writing prior to the date of the distribution. Your election will be effective for dividends and distributions paid after the Fund receives your written notice. To cancel your election, simply send the Fund written notice.

TAXES

Please consult your tax advisor regarding your specific questions about U.S. federal, state and local income taxes. Below is a
summary of some important U.S. federal income tax issues that affect the Funds and their shareholders. This summary is based on current tax laws, which may change. This summary does not apply to shares held in an IRA or other tax-qualified plans, which are generally not subject to current tax. Transactions relating to shares held in such accounts may, however, be taxable at some time in the future.

The Tax Cuts and Jobs Act (the “Tax Act”) made significant changes to the U.S. federal income tax rules for taxation of individuals and corporations, generally effective for taxable years beginning after December 31, 2017. Many of the changes applicable to individuals are temporary and only apply to taxable years beginning after December 31, 2017 and before January 1, 2026. There are only minor changes with respect to the specific rules applicable to regulated investment companies, such as the Funds. The Tax Act, however, made numerous other changes to the tax rules that may affect shareholders and the Funds. You are urged to consult with your own tax advisor regarding how the Tax Act affects your investment in the Funds.

Each Fund intends to distribute substantially all of its net investment income and net realized capital gains, if any. The dividends and distributions you receive may be subject to federal, state, and local taxation, depending upon your tax situation. Distributions you receive from each Fund may be taxable whether you receive them in cash or you reinvest them in additional shares of the Funds. Income distributions, including distributions of net short-term capital gains but excluding distributions of qualified dividend income, are generally taxable at ordinary income tax rates. Distributions that are reported by the Funds as long term capital gains and as qualified dividend income are generally taxable at the rates applicable to long-term capital gains currently set at a maximum tax rate for individuals at 20% (lower rates apply to individuals in lower tax brackets). Certain of the Funds’ investment strategies may limit their ability to make distributions eligible for the reduced rates applicable to qualified dividend income. Once a year the Funds (or their administrative agent) will send you a statement showing the types and total amount of distributions you received during the previous year.

You should note that if you purchase shares just before a distribution, the purchase price would reflect the amount of the upcoming distribution. In this case, you would be taxed on the entire amount of the distribution received, even though, as an economic matter, the distribution simply constitutes a return of your investment. This is known as “buying a dividend” and should be avoided by taxable investors.
Each sale of Fund shares may be a taxable event. For tax purposes, an exchange of your Fund shares for shares of a different fund is the same as a sale. The gain or loss on the sale of Fund shares generally will be treated as a short-term capital gain or loss if you held the shares for 12 months or less or as long-term capital gain or loss if you held the shares for longer. Any loss realized upon a taxable disposition of Fund shares held for six months or less will be treated as short-term, to the extent of any long-term capital gain distributions received (or deemed received) by you with respect to the Fund shares. All or a portion of any loss realized upon a taxable disposition of Fund shares will be disallowed if you purchase other substantially identical shares within 30 days before or after the disposition. In such a case, the basis of the newly purchased shares will be adjusted to reflect the disallowed loss.

U.S. individuals with income exceeding $200,000 ($250,000 if married and filing jointly) are subject to a 3.8% Medicare contribution tax on their “net investment income,” including interest, dividends, and capital gains (including capital gains realized on the sale or exchange of shares of a Fund).

The Funds (or their administrative agent) must report to the Internal Revenue Service (“IRS”) and furnish to Fund shareholders cost basis information for Fund shares. In addition to reporting the gross proceeds from the sale of Fund shares, the Funds (or their administrative agent) are also required to report the cost basis information for such shares and indicate whether these shares had a short-term or long-term holding period. For each sale of Fund shares, the Funds will permit shareholders to elect from among several IRS-accepted cost basis methods, including the average cost basis method. In the absence of an election, the Funds will use the average basis method as the default cost basis method. The cost basis method elected by the Fund shareholder (or the cost basis method applied by default) for each sale of Fund shares may not be changed after the settlement date of each such sale of Fund shares. Fund shareholders should consult their tax advisors to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about how cost basis reporting applies to them. Shareholders also should carefully review the cost basis information provided to them and make any additional basis, holding period or other adjustments that are required when reporting these amounts on their federal income tax returns.

To the extent a Fund invests in foreign securities, it may be subject to foreign withholding taxes with respect to dividends or interest the Fund received from sources in foreign countries. If more than 50%
of the total assets of a Fund consists of foreign securities, such Fund will be eligible to elect to treat some of those taxes as a distribution to shareholders, which would allow shareholders to offset some of their U.S. federal income tax. A Fund (or its administrative agent) will notify you if it makes such an election and provide you with the information necessary to reflect foreign taxes paid on your income tax return.

The Global Real Estate Fund and the U.S. All Cap Index Fund may each invest in REITs. The Tax Act treats “qualified REIT dividends” (i.e., ordinary REIT dividends other than capital gain dividends and portions of REIT dividends designated as qualified dividend income eligible for capital gain tax rates) as eligible for a 20% deduction by non-corporate taxpayers. This deduction, if allowed in full, equates to a maximum effective tax rate of 29.6% (37% top rate applied to income after 20% deduction). Pursuant to recently proposed regulations on which a Fund may rely, distributions by the Fund to its shareholders that are attributable to qualified REIT dividends received by the Fund and which the Fund properly reports as “section 199A dividends,” are treated as “qualified REIT dividends” in the hands of non-corporate shareholders. A section 199A dividend is treated as a qualified REIT dividend only if the shareholder receiving such dividend holds the dividend-paying shares for at least 46 days of the 91-day period beginning 45 days before the shares become ex-dividend, and is not under an obligation to make related payments with respect to a position in substantially similar or related property. A Fund is permitted to report such part of its dividends as section 199A dividends as are eligible, but is not required to do so.

REITs in which a Fund invests often do not provide complete and final tax information to the Fund until after the time that the Fund issues a tax reporting statement. As a result, the Fund may at times find it necessary to reclassify the amount and character of its distributions to you after it issues your tax reporting statement. When such reclassification is necessary, the Fund (or its administrative agent) will send you a corrected, final Form 1099-DIV to reflect the reclassified information. If you receive a corrected Form 1099-DIV, use the information on this corrected form, and not the information on the previously issued tax reporting statement, in completing your tax returns.

Certain of the Funds’ investments may be subject to complex provisions of the Code (including provisions relating to hedging transactions, straddles, integrated transactions, and notional principal contracts) that, among other things, may affect a Fund’s ability to qualify as a regulated investment company, affect the character of gains and
losses realized by a Fund (e.g., may affect whether gains or losses are ordinary or capital), accelerate recognition of income to a Fund and defer losses and, in limited cases, subject a Fund to U.S. federal income tax on income from certain of its foreign securities.

The Global Real Estate Fund may write covered call options. Covered call options are subject to complex federal tax rules that: (1) limit the allowance of certain losses or deductions by the Global Real Estate Fund; (2) convert the Global Real Estate Fund’s long-term capital gains into higher taxed short-term capital gains or ordinary income; (3) convert the Global Real Estate Fund’s ordinary losses or deductions into capital losses, the deductibility of which are more limited; and/or (4) cause the Global Real Estate Fund to recognize income or gains without a corresponding receipt of cash.

Because each shareholder’s tax situation is different, you should consult your tax advisor about the tax implications of an investment in the Funds.

More information about taxes is in the SAI.
The Trust enters into contractual arrangements with various parties, including, among others, the Funds’ investment adviser, custodian, transfer agent, accountants, administrator and distributor, who provide services to the Funds. Shareholders are not parties to, or intended (or “third-party”) beneficiaries of, any of those contractual arrangements, and those contractual arrangements are not intended to create in any individual shareholder or group of shareholders any right to enforce the terms of the contractual arrangements against the service providers or to seek any remedy under the contractual arrangements against the service providers, either directly or on behalf of the Trust.

This prospectus and the SAI provide information concerning the Trust and the Funds that you should consider in determining whether to purchase shares of the Funds. The Funds may make changes to this information from time to time. Neither this prospectus, the SAI or any document filed as an exhibit to the Trust’s registration statement, is intended to, nor does it, give rise to an agreement or contract between the Trust or the Funds and any shareholder, or give rise to any contract or other rights in any individual shareholder, group of shareholders or other person other than any rights conferred explicitly by federal or state securities laws that may not be waived.

Each Fund reserves the right to discontinue offering shares at any time or to cease operations and liquidate at any time.

The Funds are not authorized or sponsored by the Roman Catholic Church or the USCCB.

The U.S. All Cap Index Fund is not sponsored, promoted, sold or supported in any other manner by Solactive nor does Solactive offer any express or implicit guarantee or assurance either with regard to the results of using the Index and/or Index trade mark or the Index price at any time or in any other respect. The Index is calculated and published by Solactive. Solactive uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards the U.S. All Cap Index Fund, Solactive has no obligation to point out errors in the Index to third parties including but not limited to investors and/or financial intermediaries of the U.S. All Cap Index Fund. Neither publication of the Index by Solactive nor the licensing of the Index or Index trade mark for the purpose of use in connection with the U.S. All Cap Index Fund constitutes a recommendation by Solactive to invest capital in the U.S. All Cap Index Fund nor does it in any way represent an assurance or opinion of Solactive with regard to any investment in the U.S. All Cap Index Fund.
FINANCIAL HIGHLIGHTS

More information about the Funds is available, without charge, through the following:

Statement of Additional Information (“SAI”): The SAI, dated September 30, 2019, as it may be amended from time to time, includes detailed information about the Funds and The Advisors’ Inner Circle Fund III. The SAI is on file with the U.S. Securities and Exchange Commission (the “SEC”) and is incorporated by reference into this prospectus. This means that the SAI, for legal purposes, is a part of this prospectus.

Annual and Semi-Annual Reports: Once available, these reports will list the Funds’ holdings and contain information from the Adviser about investment strategies, and recent market conditions and trends and their impact on Fund performance. The reports also will contain detailed financial information about the Funds.

To Obtain an SAI, Annual or Semi-Annual Report (When Available), or More Information:

By Telephone: 1-844-KC-FUNDS (1-844-523-8637)
By Mail: Catholic Investor Funds
P.O. Box 219009
Kansas City, Missouri 64121-9009
By Internet: www.kofcassetadvisors.org

From the SEC: You can also obtain the SAI or the Annual and Semi-Annual Reports, as well as other information about The Advisors’ Inner Circle Fund III, from the EDGAR Database on the SEC’s website at: http://www.sec.gov. You may also obtain this information, upon payment of a duplicating fee, by e-mailing the SEC at the following address: publicinfo@sec.gov.

The Trust’s Investment Company Act registration number is 811-22920.
