This supplement provides new and additional information beyond that contained in the Summary Prospectus, Prospectus and SAI, and should be read in conjunction with the Summary Prospectus, Prospectus, and SAI.

Effective upon shareholder approval on May 27, 2022, the Fund’s diversification status changed from diversified to non-diversified and the related fundamental policy was eliminated. Therefore, the Summary Prospectus, Prospectus and SAI are hereby amended and supplemented as follows.

1. The following is hereby added to the “Principal Investment Strategies” section of the Summary Prospectus, and the corresponding section of the Prospectus:

The Fund is classified as “non-diversified,” which means that it may invest a larger percentage of its assets in a smaller number of issuers than a diversified fund.

2. The following is hereby added to the “Principal Risks” section of the Summary Prospectus, and the corresponding section of the Prospectus:

**Non-Diversified Risk** – The Fund is non-diversified, which means that it may invest in the securities of relatively few issuers. As a result, the Fund may be more susceptible to a single adverse economic or political occurrence affecting one or more of these issuers and may experience increased volatility due to its investments in those securities.

3. The second paragraph of the “More Information about Risk” section of the Prospectus is hereby deleted and replaced with the following:

The value of your investment in a Fund is based on the value of the securities the Fund holds. These prices change daily due to economic and other events that affect particular companies and other issuers. These price movements, sometimes called volatility, may be greater or lesser depending on the types of securities a Fund owns and the markets in which it trades. The effect on a Fund of a change in the value of a single security will depend on how widely the Fund diversifies its holdings. The Large Cap Growth Fund is non-diversified, meaning that the Fund may invest a large percentage of its assets in a single issuer or a relatively small number of issuers. Accordingly, the Large Cap Growth Fund will be more susceptible to negative events affecting a small number of holdings than a diversified fund.

4. The following is hereby added to the “More Information about Risk” section of the Prospectus:

**Non-Diversified Risk (Large Cap Growth Fund)** – The Fund is non-diversified, which means that it may invest in the securities of relatively few issuers. As a result, the Fund may be more susceptible to a single adverse economic or political occurrence affecting one or more of these issuers and may experience increased volatility due to its investments in those securities.
5. The first paragraph of the “Description of Permitted Investments” section of the SAI is hereby deleted and replaced with the following:

Each Fund’s investment objective and principal investment strategies are described in the Prospectus. Each Fund, with the exception of the Knights of Columbus Large Cap Growth Fund, is diversified, as that term is defined under the Investment Company Act of 1940, as amended (the “1940 Act”). This means that with respect to 75% of its total assets, each Fund, with the exception of the Knights of Columbus Large Cap Growth Fund, may not purchase securities of any issuer (other than obligations of, or guaranteed by, the U.S. government or its agencies or instrumentalities, or securities of other investment companies) if, as a result, more than 5% of the Fund’s total assets would be invested in the securities of such issuer, or more than 10% of the issuer’s voting securities would be held by the Fund. Under applicable federal securities laws, the diversification of a mutual fund’s holdings is measured at the time a fund purchases a security. If a Fund holds securities that perform well on a relative basis, the value of those securities could appreciate such that the value of the Fund’s securities that constitute more than 5% of the Fund’s total assets, in the aggregate, might exceed 25% of the Fund’s total assets. In these circumstances, the Adviser might determine that it is in the best interests of the Fund’s shareholders not to reduce one or more of the Fund’s holdings in securities that constitute more than 5% of the Fund’s total assets. If the Adviser makes such a determination, the Fund’s holdings in such securities would continue to exceed 25% of the Fund’s total assets, and the Fund would not purchase any additional shares of securities that constituted more than 5% of the Fund’s total assets. The Fund would continue to qualify as a diversified fund under applicable federal securities laws. If more than 25% of a Fund’s assets were invested, in the aggregate, in securities of issuers that individually represented more than 5% of the Fund’s total assets, the Fund would be subject to the risk that its performance could be disproportionately affected by the performance of such securities.

Non-Diversification. The Knights of Columbus Large Cap Growth Fund is “non-diversified,” as that term is defined under the 1940 Act, which means that it may invest a greater percentage of its total assets in the securities of fewer issuers than a “diversified” fund, which increases the risk that a change in the value of any one investment held by the Fund could affect the overall value the Fund more than it would affect that of a “diversified” fund holding a greater number of investments. Accordingly, the value of the shares of the Fund may be more susceptible to any single economic, political or regulatory occurrence than the shares of a “diversified” fund would be. The Fund, however, intends to satisfy the diversification requirements necessary to qualify as a regulated investment company (“RIC”) under the Internal Revenue Code of 1986, as amended (the “Code”). For more information, see “Taxes” below.

6. In the “Investment Limitations” section of the SAI, the first fundamental policy listed under “Fundamental Policies” is hereby deleted and replaced with the following:

Purchase securities of an issuer that would cause the Fund to fail to satisfy the diversification requirement for a diversified management company under the 1940 Act, the rules or regulations thereunder or any exemption therefrom, as such statute, rules or regulations may be amended or interpreted from time to time. This investment limitation does not apply to the Knights of Columbus Large Cap Growth Fund.

PLEASE RETAIN THIS SUPPLEMENT FOR FUTURE REFERENCE.

Before you invest, you may want to review the Fund’s complete prospectus, which contains more information about the Fund and its risks. You can find the Fund’s prospectus and other information about the Fund online at http://www.kofcassetadvisors.org/kadv/en/solutions/funds.html. You can also get this information at no cost by calling 1-844-KC-Funds (1-844-523-8637), by sending an e-mail request to KofCFunds@seic.com, or by asking any financial intermediary that offers shares of the Fund. The Fund’s prospectus and statement of additional information, both dated March 1, 2022, as they may be amended from time to time, are incorporated by reference into this summary prospectus and may be obtained, free of charge, at the website, phone number or e-mail address noted above.
### Investment Objective

The Knights of Columbus Large Cap Growth Fund (the “Large Cap Growth Fund” or the “Fund”) seeks long-term capital appreciation.

### Fund Fees and Expenses

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may be required to pay commissions and/or other forms of compensation to a broker for transactions in I Shares, which are not reflected in the table or the example below.

#### Shareholder Fees (fees paid directly from your investment)

| Redemption Fee (as a percentage of amount redeemed, if shares redeemed have been held for less than 30 days) | 2.00% |

#### Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

\(^1\) Knights of Columbus Asset Advisors LLC (“Knights of Columbus Asset Advisors” or the “Adviser”) has contractually agreed to waive fees and/or to reimburse expenses to the extent necessary to keep Total Annual Fund Operating Expenses (excluding interest, taxes, brokerage commissions and other costs and expenses relating to the securities that are purchased and sold by the Fund, acquired fund fees and expenses, other expenditures which are capitalized in accordance with generally accepted accounting principles, non-routine expenses and any class-specific expenses (including Shareholder Servicing Fees) (collectively, “excluded expenses”)) from exceeding 0.90% of the average daily net assets of each of the Fund’s share classes until February 28, 2023 (the “contractual expense limit”). In addition, the Adviser may receive from the Fund the difference between the Total Annual Fund Operating Expenses (not including excluded expenses) and the contractual expense limit to recoup all or a portion of its prior fee waivers or expense reimbursements made during the rolling three-year period preceding the recoupment if at any point Total Annual Fund Operating Expenses (not including excluded expenses) are below the contractual expense limit (i) at the time of the fee waiver and/or expense reimbursement and (ii) at the time of the recoupment. This agreement may be terminated: (i) by the Board of Trustees (the “Board”) of The Advisors’ Inner Circle Fund III (the “Trust”), for any reason at any time; or (ii) by the Adviser, upon ninety (90) days’ prior written notice to the Trust, effective as of the close of business on February 28, 2023.
Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest $10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses (including one year of capped expenses in each period) remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

</tbody>
</table>

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in total annual Fund operating expenses or in the example, affect the Fund’s performance. During its most recent fiscal year, the Fund’s portfolio turnover rate was 78% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, the Fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of large-capitalization companies. This investment policy can be changed by the Fund upon 60 days’ prior written notice to shareholders. For purposes of this policy, a large-capitalization company is a company with a market capitalization within the range of the Russell 1000 Growth Index at the time of initial purchase. While the market capitalization range of the Russell 1000 Growth Index changes throughout the year, as of December 31, 2021, the market capitalization range of the Russell 1000 Growth Index was between approximately $1.2 billion and $2.9 trillion. The equity securities in which the Fund invests are primarily common stocks of U.S. companies. From time to time, the Fund may focus its investments in a particular sector, including the information technology sector.
The Fund makes investment decisions consistent with the United States Conference of Catholic Bishops’ Socially Responsible Investing Guidelines (the “USCCB Guidelines”), and therefore, the Fund is designed to avoid investments in companies that are believed to be involved with abortion, contraception, pornography, stem cell research/human cloning, weapons of mass destruction, or other enterprises that conflict with the USCCB Guidelines. The policies and practices of the companies selected for the Fund are monitored for various issues contemplated by the USCCB Guidelines. If the Adviser becomes aware that the Fund is invested in a company whose policies and practices are inconsistent with the USCCB Guidelines, the Adviser may sell the company’s securities or otherwise exclude future investments in such company.

In selecting investments for the Fund, the Adviser combines quantitative and qualitative analyses that together seek to identify companies that have above-average investment potential. The quantitative process begins with understanding the market regime or investment environment. Factor exposures used by the quantitative models are tilted to areas that are believed will perform best within a specific environment. Four “super-factors” (Valuation, Growth and Profitability, Quality and Investor Sentiment) are then applied to the broad universe. By combining these factors, the investable universe is ranked by decile (1 = attractive, 10 = unattractive). The “buyable” universe for the Fund generally includes the top three deciles, or the most statistically attractive companies, and the weighted average rank of securities held in the Fund are within the top three deciles.

Fundamental research is conducted on the buyable universe to assess criteria that are difficult to quantify. The portfolio management and fundamental analyst teams construct the portfolio with only highly ranked companies. Risk is measured and monitored throughout the research and portfolio management process in different ways, including active risk to the benchmark, individual stock contribution to that active risk and sector/industry group/individual stock exposure risks. The Adviser will generally sell a stock on behalf of the Fund if the stock experiences a rankings decline or extreme price movements, or for risk management purposes.

Due to its investment strategy, the Fund may buy and sell securities frequently.
As with all mutual funds, there is no guarantee that the Fund will achieve its investment objective. You could lose money by investing in the Fund. **A Fund share is not a bank deposit and is not insured or guaranteed by the FDIC or any government agency.** The principal risk factors affecting shareholders’ investments in the Fund are set forth below.

**Equity Risk** – Since it purchases equity securities, the Fund is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund’s equity securities may fluctuate drastically from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. In addition, the impact of any epidemic, pandemic or natural disaster, or widespread fear that such events may occur, could negatively affect the global economy, as well as the economies of individual countries, the financial performance of individual companies and sectors, and the markets in general in significant and unforeseen ways. Any such impact could adversely affect the prices and liquidity of the securities and other instruments in which the Fund invests, which in turn could negatively impact the Fund’s performance and cause losses on your investment in the Fund.

**Active Management Risk** – The Fund is subject to the risk that the Adviser’s judgments about the attractiveness, value, or potential appreciation of the Fund’s investments may prove to be incorrect. If the investments selected and strategies employed by the Fund fail to produce the intended results, the Fund could underperform in comparison to its benchmark index or other funds with similar objectives and investment strategies.

**Investment Style Risk** – The Adviser’s growth investment style may increase the risks of investing in the Fund. Because the prices of growth stocks are based largely on the expectation of future earnings, growth stock prices can decline rapidly and significantly when it appears that those expectations will not be met. In addition, a growth investing style may go in and out of favor over time, causing the Fund to sometimes underperform other equity funds that use differing investing styles.

**Large-Capitalization Company Risk** – The large-capitalization companies in which the Fund invests may not respond as quickly as smaller companies to competitive challenges, and their growth rates
may lag the growth rates of well-managed smaller companies during strong economic periods.

**Catholic Values Investing Risk** – The Fund considers the USCCB Guidelines in its investment process and may choose not to purchase, or may sell, including at inopportune times which would result in losses to the Fund, otherwise profitable investments in companies which have been identified as being in conflict with the USCCB Guidelines. This means that the Fund may underperform other similar mutual funds that do not consider the USCCB Guidelines when making investment decisions. In addition, there can be no guarantee that the activities of the companies identified by the Fund’s investment process will align (or be perceived to align) with the principles contained in the USCCB Guidelines.

**Information Technology Sector Risk** — Information technology companies face intense competition and potentially rapid product obsolescence. They are also heavily dependent on intellectual property rights and may be adversely affected by the loss or impairment of those rights.

**Quantitative Investing Risk** – There is no guarantee that a quantitative model or algorithm used by the Adviser, and the investments selected based on the model or algorithm, will perform as expected or produce the desired results. The Fund may be adversely affected by imperfections, errors or limitations in the construction and implementation of the model or algorithm and the Adviser’s ability to properly analyze or timely adjust the metrics or update the data underlying the model or features of the algorithm.

**Portfolio Turnover Risk** – Due to its investment strategy, the Fund may buy and sell securities frequently. This may result in higher transaction costs and additional capital gains tax liabilities, which may affect the Fund’s performance.

**Large Purchase and Redemption Risk** – Large purchases or redemptions of the Fund’s shares may force the Fund to purchase or sell securities at times when it would not otherwise do so, and may cause the Fund’s portfolio turnover rate and transaction costs to rise, which may negatively affect the Fund’s performance and have adverse tax consequences for Fund shareholders.

**Performance Information**

The bar chart and the performance table below illustrate the risks and volatility of an investment in the Fund by showing changes in
the Fund’s I Shares’ performance from year to year and by showing how the Fund’s average annual total returns for 1 year, 5 years and since inception compare with those of a broad measure of market performance. Of course, the Fund’s past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future. Updated performance information is available on the Fund’s website at www.kofcassetadvisors.org or by calling toll-free to 1-844-KC-FUNDS (1-844-523-8637).

Average Annual Total Returns for Periods Ended December 31, 2021

This table compares the Fund’s average annual total returns for the periods ended December 31, 2021 to those of an appropriate broad based index.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns will depend on an investor’s tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts (“IRAs”). After-tax returns are shown for I Shares only. After-tax returns for Class S Shares will vary.

**Investment Adviser**

Knights of Columbus Asset Advisors LLC

**Portfolio Managers**

Mr. David Hanna, Vice President and Portfolio Manager, has managed the Fund since its inception in 2015.

Mr. Douglas A. Riley, CFA, Vice President and Portfolio Manager, has managed the Fund since its inception in 2015.

Mr. James W. Gaul, CFA, Vice President and Portfolio Manager, has managed the Fund since its inception in 2015.

Mr. Eric Eaton, CFA, Portfolio Manager and Equity Analyst, has managed the Fund since 2019.

**Purchase and Sale of Fund Shares**

You may generally purchase or redeem shares on any day that the New York Stock Exchange (“NYSE”) is open for business.

To purchase I Shares of the Fund for the first time, you must invest, in the aggregate, at least $25,000 in one or more Knights of Columbus Funds. If you hold I Shares of a Knights of Columbus Fund, you may purchase I Shares of the same Fund, or purchase I Shares of any other...
Knights of Columbus Fund, in amounts of at least $250. However, these minimum initial and subsequent investment requirements for I Shares of the Fund do not apply to clients of the Adviser who participate in, and purchase I Shares through, a fee-based investment advisory program sponsored by the Adviser or its affiliates. The Adviser currently sponsors a fee-based investment advisory program through which I Shares is the only class of shares of the Fund available for purchase by participating clients. For additional information about this program, please contact the Adviser.

There is no minimum initial or subsequent investment amount for Class S Shares of the Fund.

The Fund may accept investments of smaller amounts in its sole discretion.

If you own your shares directly, you may redeem your shares by contacting the Fund directly by mail at Knights of Columbus Funds, P.O. Box 219009, Kansas City, MO 64121-9009 (Express Mail Address: Knights of Columbus Funds, c/o DST Systems, Inc., 430 West 7th Street, Kansas City, MO 64105) or telephone at 1-844-KC-FUNDS (1-844-523-8637).

If you own your shares through an account with a broker or other financial intermediary, contact that broker or financial intermediary to redeem your shares. Your broker or financial intermediary may charge a fee for its services in addition to the fees charged by the Fund.

Tax Information

The Fund intends to make distributions that may be taxed as qualified dividend income, ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or IRA, in which case your distributions will be taxed when withdrawn from the tax-deferred account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s web site for more information.
